

'Polestar'

This attractive red-flowering variety produces a good show of attractive summer flowers, which are eye-catching in beds and borders. It then produces a good yield of 10-in (25-cm) long, flavorful pods. It is vigorous, and will easily reach the top of a 5.5 ft (1.7 m) high support.

-  unsuitable for containers
-  late spring to early summer
-  poor resistance
-  not hardy
-  midsummer to mid-fall

'Flare'

This red-flowering variety is well-regarded for its high yields of straight, narrow, and virtually stringless pods that can reach up to 12 in (30 cm) in length. It is an attractive plant, which makes it a good addition to the ornamental garden.

-  unsuitable for containers
-  late spring to early summer
-  some resistance
-  not hardy
-  midsummer to mid-fall

'Achievement'

This improved, very popular variety bears an abundance of red flowers that are followed by tasty beans in long, straight pods. It produces excellent results for the kitchen and show bench. Pick regularly, before the pods mature, for continuous flowering.

-  unsuitable for containers
-  late spring to early summer
-  some resistance
-  not hardy
-  midsummer to mid-fall
