

Gaekwad Baroda Saloon

Year Introduced 1886

Gauge Broad

Type Saloon

Built by Parel Workshops, Bombay Baroda and Central India Railway

Number of Wheels 6

This royal saloon was made for the royal family of the Gaekwads of Baroda (in present-day Gujarat). The inner ceiling was decorated with gold enamel. The saloon was also uniquely fitted with two outer axles controlled by a central spring system that would move to accommodate any curves of the railway tracks. The outer axles had vacuum and hand brakes.
