

Viceregal Dining Car

Year Introduced 1889

Gauge Metre

Type Saloon

Built by Ajmer Workshops of Bombay Baroda and Central India Railway

Number of Wheels 8

This was part of the five-coached Viceregal train built for the Viceroy. Coloured white on the outside, this wooden dining car had a water filter, crockery cupboard, space for four armed guards, and vacuum brakes. The inside was decorated with wooden carvings. The original plain bearings were later replaced with roller bearings.
