

EXTERIOR PARTS

The saloon has a wooden body and a steel underframe. At both ends, it has small verandas covered by an extended roof, and surrounded by intricately designed brass railings. One of the verandas has a provision for a vestibule system. It is one of the earliest coaches to have this system.

1. Fenced veranda 2. Metal plate
3. Undercarriage 4. Metal wheel
5. Shocker 6. Doorknob painted
bright gold 7. Vestibule system
