

Tweed

Year built 1873

Manufacturer Sharp, Stewart & Co, Manchester, UK

Gauge Metre

Wheel configuration 0-4-0

This D class locomotive is one of the oldest working metre-gauge locomotives in the world. It was built to be used on the Oudh and Tirhut Railway. In 1925, it was sold to Saraya Sugar Mills System, a factory in Gorakhpur, Uttar Pradesh, where it was used as a shunting engine.
