

MTR 2

Year built 1910

Manufacturer Dick, Kerr & Co, London, UK

Gauge Narrow (2'6")

Wheel configuration 0-4-2

This saddle tank steam engine with an oversized chimney was built for use as a shunting and freight engine for the Karachi Port Trust. In 1917–22 it worked at the Marala Timber Depot in modern-day Pakistan. After this it was transferred to a creosoting plant in Dhilwan, present-day Punjab.
