

Railway Advisory Councils for greater participation of the Indian public in railway management.

Forming a budget

For the railways' financial aspects, the committee proposed that the Finance Department of the Government should cease to control the internal finances of the railways and that the latter should have a separate budget. It suggested that the railway accounts should be subject to an independent audit by the Government and that its accounting and statistical systems be remodelled in accordance with best practices followed in other countries.

▲ **Passengers travelling in the third-class** compartments faced hardships due to overcrowding and unsanitary conditions. The committee resolved to make a change.

General railway reforms

The committee also suggested the establishment of a Rates Tribunal for jurisdiction over rates and facilities. It noted that steps should be taken for quick settlement of claims for damage and loss, to improve
