

CS-775

Year built 1927

Manufacturer WG Bagnall Ltd., Stafford ,UK

Power Steam

Gauge Narrow (2'6")

Wheel configuration 2-4-0

At 10.8 tonnes, this is one of the lightest locomotives. The engine, which ran on the narrow-gauge track between Shantipur and Nabadwip Ghat in the Sealdah Division of the Eastern Railway, could achieve a maximum speed of about 20 km/h. This engine stopped running in April 1986.
