

▲ **Dedicated Freight Corridor Corporation of India's** newly constructed and highly advanced Eastern Dedicated Freight Corridor's operation control centre is situated at Prayagraj in Uttar Pradesh.

rites and IRCON

As the first PSU of the Indian Railways, RITES was successful from the beginning, recording profits in its first operational year. Since then, it has worked with many countries, such as Ghana, Nepal, Malaysia, and Syria. Countries struck by war, such as Cambodia and Vietnam, have turned to it for help with the reconstruction of their railways. Initially, the scope was limited to rail consultancy services. Over time, it has branched out to specialize in other transportation areas, provide quality inspections, export rolling stock and other equipment to Southeast Asian countries, and contribute to metro services in Delhi and Bengaluru. It continues to expand and diversify and has participated in domestic matters as well, such as developing a model to enable heavy industrial units to lease locomotives for their use and providing guidance for the Udhampur–Srinagar–Baramulla Rail Link (see [Kashmir Connection](#)). In 1995, IRCON, renamed Ircon International Ltd, was involved in a range of activities, such as the construction of new
