

WAG-5

Year Introduced 1988

Manufacturer Chittaranjan Locomotive Works (CLW); Bharat Heavy Electricals Limited (BHEL)

Power AC Electric

Gauge Broad

Wheel Arrangement Co-Co

Highly successful, more than 1,100 units of this locomotive have been produced. With 4360 HP, the locomotives could run at 100 km/h. Over the years, many variants have been produced. The differences in the variants range from speed to gearing. Many variants built by the BHEL have been produced by CLW. Although WAG-5 are freight-dedicated locomotives, with the arrival of WAG-7 and WAG-9 variants, it operated on local trains.
