
DESERT TRAIN

Delhi–Jaisalmer Express, *Jodhpur–Jaisalmer*

There are several trains that make their way to Jaisalmer in the desert state of Rajasthan. However, the Delhi–Jaisalmer Express is the best way to savour the actual breadth of the state. An overnight journey from the capital, the actual desert experience begins as the train pulls into Jodhpur. Watch the early morning sun over the blue city and the dunes emerge

past the ancient town of Osian, an oasis and an important pilgrimage centre. The barren Pokhran, the famous nuclear test site, is another stop before the final destination, Jaisalmer, a city in the heart of the massive Thar desert. The never-ending, arid landscape adds its own charm to the journey, which offers a glimpse into the colourful towns and villages that the train passes through.
