

Junkers Ju 88R-1

First conceived in 1935 in response to official requirements for a high-speed medium "Schnellbomber," the Junkers Ju 88 became the main German bomber of the war. Just under 15,000 (more than all the other German bombers combined) were produced. Originally designed for level and dive-bombing, the Ju 88 was also successfully adapted as a fighter, reconnaissance, and training plane. Its versatility meant that the Ju 88 was one of the outstanding planes of the war and could be called on for minelaying, torpedo bombing, pilotless missile attack, night-fighting, long-range escort, ground and sea attack, tank busting, and pathfinding duties.

ENGINE 2 x 1,600hp BMW 801MA air-cooled radial

WINGSPAN 65ft 8in (19.8m) **LENGTH** 51ft (15.6m)

TOP SPEED 292mph (470kph) **CREW** 2

ARMAMENT 3 x 7.9mm MG17; 3 x 20mm MG FF/M

Mitsubishi Ki-21 ("Sally")

The Ki-21 Type 97 heavy bomber was the Japanese Army Air Force's standard bomber at the time of Pearl Harbor. It played an important role throughout the war, although it had become obsolete long before 1945. First flown in 1937, it went through various modifications, including the addition of a dorsal gun turret. After 1944, it was replaced by the Ki-67 ("Peggy").

ENGINE 2 x 1,490hp Mitsubishi Ha. 101 air-cooled radial

WINGSPAN 72ft 10in (24.9m) **LENGTH** 52ft 6in (19.7m)

TOP SPEED 297mph (460kph) **CREW** 7

ARMAMENT 1 x 12.7mm and 5 x 7.7mm machine guns; 1,654lb (750kg) bombload

North American B-25H Mitchell

A medium bomber, the North American B-25 Mitchell made its maiden flight in August 1940, and was in service by the time of Pearl Harbor. During the war, 870 B-25s were supplied to Russia. Later models carried a 75mm cannon along with provision for torpedoes.

ENGINE 2 x 1,850hp Wright R-2600-29 Cyclone radial

WINGSPAN 67ft 7in (20.6m) **LENGTH** 52ft 11in (16.1m)

TOP SPEED 275mph (438kph) **CREW** 6

ARMAMENT 13 x .5in machine guns; 4,000lb (1,800kg) bombload

Savoia-Marchetti SM.79-II Sparviero ("Hawk")

ENGINE 3 x 1,000hp Piaggio P.XI RC 40 radial

WINGSPAN 69ft 7in (21.2m) **LENGTH** 53ft 2in (16.2m)

TOP SPEED 270mph (456kph) **CREW** 4

ARMAMENT 4 x 12.7mm Breda-SAFAT; 1 x 7.7mm Lewis machine gun; 2,750lb (1,240kg) bombload or 2 x torpedoes

Despite its unorthodox "hunchback" appearance, the SM.79 was a highly efficient medium bomber, rated by many as the best land-based torpedo bomber of the war. It first appeared in 1934 as a commercial transport plane, before being tested as a bomber during the Spanish Civil War, on the side of Franco's nationalists. Making up over half of Italy's bomber force, the SM.79 was widely used

around the Mediterranean area for antishipping, reconnaissance, and conventional bombing duties. It sank numerous British ships, including the *Malaya* and *Argos* and was also used to support Italy's North African campaign.

Short S.29 Stirling I

The Short Stirling was the first four-engined bomber to enter RAF service. Unfortunately its short wingspan, limiting its payload and altitude, proved troublesome and it was soon superseded by later heavy bombers such as the Handley Page Halifax and the Avro Lancaster. By 1943, it was being used as a transport plane and glider tug.

ENGINE 4 x 1,590hp Bristol Hercules XI radial

WINGSPAN 99ft 1in (30.2m) **LENGTH** 87ft 3in (26.6m)

TOP SPEED 260mph (440kph) **CREW** 7-8

ARMAMENT 8 x .303in Browning machine guns; 14,000lb (6,350kg) bombload

Vickers Wellington X

The twin-engined Vickers Wellington was a medium bomber renowned for the large amount of damage it could withstand, thanks to its geodetic structure, designed by the "bouncing bomb" inventor, Barnes Wallis. The Wellington was Britain's most effective night bomber until the arrival of the four-engined "heavies" and played a vital role during the dark days of 1941 and 1942. It dropped the first 4,000lb (1,880kg) "blockbuster" bomb in the Emden raid in 1941. During the midwar years, it was effectively adapted to other roles such as maritime patrol, transportation, and training.

ENGINE 2 x 1,675hp Bristol Hercules VI radial

WINGSPAN 86ft 2in (26.2m) **LENGTH** 64ft 7in (19.7m)

TOP SPEED 255mph (431kph) **CREW** 6

ARMAMENT 6 x .303in Browning machine guns; 6,000lb (2,722kg) bombload
