Maximum weight	55,000 lb (24,948 kg) loaded	Top speed	287 mph (462 km/h)

Fighting machine
This 1945 aircraft is the last remaining airworthy B-17 in Europe. Originally known as *Sally B*, she was used in the 1990 film *Memphis Belle*. The paintwork added for the film is still visible on one side of the nose, while the other side has been restored to its original design.
