

▷ **IAI 1124 Westwind 1976**

Origin Israel

Engine 2 x 3,700 lb (1,678 kg) thrust Garrett TFE731-3-1G turbofan

Top speed 539 mph (868 km/h)

Designed in the US by Aero Commander and first flown in 1963, the design was sold to Israeli Aircraft Industries, which launched the much-improved 1124 in 1976. Total production was 442.

◁ **Cessna C550 Citation II 1977**

Origin USA

Engine 2 x 2,500 lb (1,134 kg) thrust Pratt & Whitney Canada JT15D-4B turbofan

Top speed 464 mph (746 km/h)

Although it used similar turbofan engines to its rivals the C550 was relatively slow due to its straight wing. However, Cessna boosted performance and seating capacity over the Citation I, also increasing its range.

△ **Edgley Optica 1979**

Origin UK

Engine 150 hp Textron Lycoming IO-540-V4A5D air-cooled flat-6

Top speed 132 mph (212 km/h)

The Optica was designed as an economical alternative to helicopters for observation work, such as by police forces, with a fully glazed cabin and a flat-6 engine driving a ducted fan. Cruise speed was 80 mph (129 km/h).

△ **Canadair Challenger CL600 1978**

Origin Canada

Engine 2 x 7,500 lb (3,402 kg) thrust Avco Lycoming ALF-502L turbofan

Top speed 562 mph (904 km/h)

Canadair bought the concept of this aircraft from Bill Lear, securing government support to build it. It featured a wide, "walk-about" cabin and supercritical wing design. Developed versions remain in production.

▷ **Gulfstream GIII 1979**

Origin USA

Engine 2 x 11,400 lb (5,171 kg) thrust Rolls-Royce Spey RB.163 Mk511-8 turbofan

Top speed 576 mph (927 km/h)

Based on Grumman's Gulfstream GII, enlarged and with longer wings optimized for low aerodynamic drag, the Gulfstream GIII was popular with the US and other military customers as well as business users.

△ **Gates Learjet 55 1979**

Origin USA

Engine 2 x 3,700 lb (1,678 kg) thrust Garrett TFE731-3A-2B turbofan

Top speed 541 mph (871 km/h)

Nicknamed "Longhorn" for its cowhornlike NASA-developed winglets, the 50-series was designed around more spacious cabins than previous Learjets. Production began in 1981 and 147 were built.
