

△ B & W Seaplane 1916

Origin US

Engine 125 hp Hall-Scott A5 water-cooled 6-cylinder in-line

Top speed 75 mph (121km/h)

William Boeing and Conrad Westervelt built the first Boeing of wood, linen, and wire, improving on a Martin trainer that Boeing owned. Two were sold to New Zealand, to be used for airmail deliveries.

▷ Handley Page O/400 1917

Origin UK

Engine 2 x 360hp Rolls-Royce Eagle VIII water-cooled V12

Top speed 98mph (158 km/h)

Production difficulties delayed Britain's heavy bomber, the largest UK aircraft of its day. In its second, O/400 form, it could carry 2,000 lb (907 kg) of bombs. After the war, a handful were used for civil transport.

△ Handley Page V/1500 1918

Origin UK

Engine 4 x 375 hp Rolls-Royce Eagle VIII water-cooled V12

Top speed 99 mph (159 km/h)

Just too late for WWI, this large long-range bomber carried 3,086 lb (1,400 kg). One made the first flight from England to India in 1918-1919, another bombed the Royal Palace to end the Anglo-Afghan War in 1919.

△ Gotha GV 1917

Origin Germany

Engine 2 x 260 hp Mercedes D.IVa water-cooled 6-cylinder in-line

Top speed 87 mph (140 km/h)

Although they could carry just 6 x 110 lb (50 kg) bombs per raid, Germany's Gotha heavy bombers dropped some 85 tons of bombs on England in 1917-18 for the loss of 24 aircraft, flying at over 15,000 ft (4,572 m).

△ Zepplin Staaken R.IV 1915

Origin Germany

Engine 6 x 160hp Mercedes D.III/220hp Benz Bz.IV water-cooled 6-cylinder in-line

Top speed 84 mph (135 km/h)

Based, ironically, on a civil aircraft designed for a competition sponsored by the *Daily Mail*, Zepplin Staaken *Riesenflugzeuge* (giant aircraft) bombers proved capable of operating over England with near impunity.

◁ Bristol Type 24 Braemar I 1918

Origin UK

Engine 2 x 230 hp Siddeley Puma water-cooled 6-cylinder in-line

Top speed 106mph (171km/h)

This prototype heavy bomber was capable of bombing as far away from England as Berlin. Just two prototypes (of which this is the first) were built, followed by one 14-passenger civil transport.
