

HEL

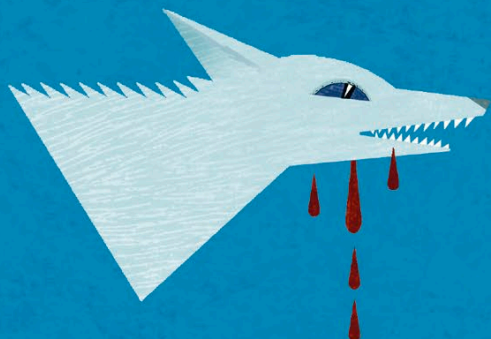

GODDESS OF THE UNDERWORLD

Hel lives far from the sight of the living souls who dread her, so perhaps it's no surprise that her name means "hidden". She lurks in the chambers and halls of the land of the dead: Niflheim. She is partially beautiful, partially blue-skinned and rotten, and entirely gloomy.

PARENTS: Loki and Angrboda (a giantess)

SIBLINGS: Jörmungandr the World Serpent and Fenrir the wolf

SACRED SYMBOL

GARMR

Garmr is a ferocious wolf, with blood-matted fur, that guards the gates of Niflheim.

HEL'S REALM

Odin gave Hel Niflheim, which means "world of mist", to rule. It's a grim, cold place where the souls of the dishonourable are sent. The worst part is Nastrond – "corpse shore". Here lie the ghosts of murderers and oath-breakers, and the dragon Nidhogg sucks their blood.
