

The Theft of Freya's Necklace

Freya was one of the cleverest of the Vanir gods and an expert in magic. Her most precious possession was an enchanted necklace called Brisingamen.

On this particular day, the gods had gathered for their evening meal, and Freya was wearing Brisingamen. "What a splendid ornament," Odin said, "beaten in its beauty only by the wearer."

Freya was uninterested in such flattery, but politely thanked the god. "And the way it shines like fire!" Heimdall said, flashing a golden smile. "Quite exquisite."

Now, Loki was in a particularly jealous, greedy and petty mood. He decided to steal the precious necklace and keep it for himself. After Freya had gone to bed, he turned himself into a fly and crawled into her locked chambers through a tiny hole in the wall. Then he turned back into himself, delicately removed Brisingamen from the sleeping Freya's throat, and disappeared into the night.
