

IDUN

GODDESS OF SPRING

Idun is the goddess of spring, youth and rejuvenation, and her name most likely means “ever-young”. She is important to the Aesir because she looks after the fruit of immortality, which the gods eat so they can live forever. Idun’s husband is the poet-god Bragi.

PARENTS: Unknown

CHILDREN: None

SACRED SYMBOLS

SPRING

It is only fitting that Idun is the goddess of spring – the season when the cycle of life begins anew.

FRUIT

When eaten, Idun’s fruit gives the Aesir the gifts of vitality and immortality.

NUT

Loki temporarily changes Idun into a nut to rescue her from Thjazi the Giant.

WOODEN BOX

Idun carries her life-giving fruit in a box made from ash wood.

CALM GODDESS

Once, during a feast, Loki insulted Idun even though she did not deserve it. Instead of losing her temper and making the situation worse, graceful Idun replied to his taunts calmly but firmly.
