

OTHER DWARF TREASURES

The Sons of Ivaldi were also skilled at metalwork – they made each of the treasures below, apart from Brisingamen. Nobody knows which dwarfs made this.

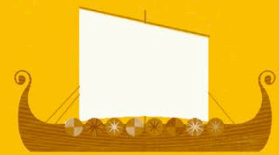

SIF'S GOLDEN HAIR

A skullcap of golden hair was made to replace the tresses that Loki cut from Sif's head.

GLEIPNIR

Light, supple and made from six impossible things, this is the only chain strong enough to hold Fenrir.

SKIDBLADNIR

This best of ships belongs to Freyr. It can be folded and kept in a bag when not needed.

GUNGNIR

Odin's spear ("the swaying one") always strikes its target no matter how poorly it is thrown.

BRISINGAMEN

This bright necklace, or torque, was worn by the goddess Freya.
