

PERENNIAL MEDIUM

Common sorrel

Rumex acetosa An upright perennial with oval, aromatic green leaves that are patterned with red veins in some forms. Pick the young tangy leaves throughout summer to add to salads, or cook them like spinach to make soups and purées.

↑↔ 24in (60cm)

☀ Z3–7

SHRUB SMALL

Variegated sage

***Salvia officinalis* 'Tricolor'** This evergreen subshrub, also grown as an annual, has aromatic, cream- and pink-edged gray-green foliage and lilac-pink summer blooms. Infuse the leaves to make a soothing tea, or use to flavor meat dishes.

↑ 32in (80cm) ↔ 3ft (1m)

☀ Z5–9

PERENNIAL LARGE

Common comfrey

Symphytum officinale A tall upright perennial with large, coarse green leaves. In late spring and summer, it bears pink, purple, or white flowers. Steep the nutrient-rich leaves in water to make organic fertilizer or compost to improve soil.

↑ 3ft (1m) ↔ 30in (75cm)

☀ Z4–9

SHRUB SMALL

Lavender cotton

Santolina chamaecyparissus A mound-forming evergreen subshrub that can be grown as an annual, with aromatic, finely cut silvery gray foliage and pompomlike, yellow summer flowers. Use the leaves in potpourri or to repel moths.

↑ 30in (75cm) ↔ 3ft (1m)

☀ Z6–9

SHRUB SMALL

Lemon thyme

Thymus x citriodorus A bushy evergreen shrub with small, oval, lemon-scented foliage and pale lavender-pink flowers in summer. The citrus-flavored leaves are used in fish dishes. 'Variegata' has cream-edged leaves.

↑ 12in (30cm) ↔ 10in (25cm)

☀ Z5–9

SHRUB SMALL

Sage

Salvia officinalis This evergreen subshrub, which can be grown as an annual, produces oval, aromatic gray-green foliage and spikes of lilac-pink flowers in summer. The leaves are used to flavor meat dishes and to make stuffing.

↑↔ 32in (80cm)

☀ Z5–9

SHRUB SMALL

Thyme

Thymus vulgaris A low-growing evergreen subshrub with small, oval, aromatic gray-green leaves and purple to white flowers in early summer. Use the leaves to flavor stews and soups. Trim annually to encourage growth.

↑ 12in (30cm) ↔ 16in (40cm)

☀ Z4–9

SHRUB SMALL

Purple sage

***Salvia officinalis* 'Purpurascens'**

An evergreen subshrub, also grown as an annual, with oval, aromatic purple leaves that are red-purple when young. Lilac-pink flowers appear in summer. Use the leaves to flavor meat dishes and to make stuffing.

↑↔ 12in (30cm)

☀ Z5–9

ANNUAL/BIENNIAL SMALL

Summer savoury

Satureja hortensis This upright annual produces slim, linear bronze-green leaves and small, tubular rose-white flowers in late summer. Use the leaves meat and fish dishes or to add flavor to salads.

↑ 10in (25cm) ↔ 12in (30cm)

☀
