

PERENNIAL MEDIUM

Anemanthele lessoniana

PHEASANT'S TAIL GRASS A clump-forming semievergreen grass with arching green leaves tinged with red and orange in summer and fall. Sprays of red-brown flowers appear in late summer. It self-seeds prolifically; weed out unwanted seedlings.

↑3ft (1m)

☀ Z8–10

PERENNIAL MEDIUM

Anthemis tinctoria

GOLDEN MARGUERITE A clump-forming perennial that produces finely dissected green leaves and an abundance of white or yellow daisy-like flowers on branching stems throughout summer. 'E.C. Buxton' (above) is a popular variety.

↑↔3ft (1m)

☀ Z3–8

PERENNIAL MEDIUM

Aquilegia canadensis

COLUMBINE This upright perennial produces fernlike green leaves and, from mid-spring to summer, red flowers with yellow centers that hang gracefully from wiry stems. 'Zulu Prince' (above) has creamy yellow flowers.

↑24in (60cm) ↔12in (30cm)

☀ Z3–8 (N)

PERENNIAL LARGE

Calamagrostis x acutiflora

FEATHER REED GRASS This perennial grass produces a clump of arching green leaves, above which appear stems of upright architectural summer flower heads, which can be left in place for fall interest. 'Overdam' (above) has variegated leaves.

↑↔4ft (1.2m)

☀ Z5–9

ANNUAL/BIENNIAL MEDIUM

Arctotis fastuosa

CAPE DAISY An upright annual with lobed silvery green leaves and masses of bright orange daisy-like flowers with dark maroon and black eyes throughout summer. Plant it in groups in containers of all-purpose potting soil.

↑24in (60cm) ↔12in (30cm)

☀ Z11

ANNUAL/BIENNIAL MEDIUM

Argemone mexicana

DEVIL'S FIG An upright annual with prickly, deeply divided dark green leaves and saucer-shaped, pale lemon-yellow flowers from late summer to fall. Sow seeds in spring directly into the gravel; it will self-seed readily in following years.

↑24in (60cm) ↔12in (30cm)

☀ ! Z0 (N)

PERENNIAL MEDIUM

Asclepias tuberosa

BUTTERFLY WEED An upright perennial, with lance-shaped green leaves. From late summer to early fall, it bears clusters of small bright orange-red flowers, which are magnets for bees and butterflies, followed by decorative seedpods.

↑30in (75cm) ↔18in (45cm)

☀ ! Z4–9 (N)

PERENNIAL LARGE

Calamagrostis brachytricha

KOREAN FEATHER REED GRASS A clump-forming deciduous grass with arching gray-green leaves and upright, feather-shaped, tall pink-tinted silver summer flower heads, followed by straw-colored seedheads that persist through winter.

↑4½ft (1.4m) ↔20in (50cm)

☀ Z4–9

SHRUB LARGE

Ceanothus 'Concha'

CALIFORNIA LILAC An evergreen shrub with small, oval dark green leaves. In late spring, rounded clusters of red-purple buds open to reveal dark blue flowers. Plant close to a fence or wall; prune lightly after flowering. Best in West Coast gardens.
