

PERENNIAL SMALL

Campanula carpatica

CARPATHIAN HAREBELL This clump-forming perennial forms a dense mat of green leaves and open bell-shaped, violet-blue or white flowers throughout summer. Plant it in rock gardens or trail over the edge of alpine planters.

↑ 4in (10cm) ↔ 12in (30cm)

☀ Z4–7

PERENNIAL SMALL

Cerastostigma plumbaginoides

PLUMBAGO A low-growing, bushy perennial bearing small, oval green leaves that turn red in fall and clusters of blue single flower on branched, reddish green stems from late summer to fall.

↑ 18in (45cm) ↔ 8in (20cm)

☀ Z5–9

BULB MEDIUM

Colchicum autumnale

MEADOW SAFFRON This fall-flowering perennial bulb has strap-shaped leaves that appear after, or at the same time as, the small, vase-shaped lavender-pink flowers. Plant it where it is easily visible and not lost among other plants.

↑ 6in (15cm)

☀ Z4–8

BULB SMALL

Crocus 'Snow Bunting'

CROCUS This perennial corm has grassy dark green leaves marked with white lines. In early spring, fragrant white flowers with mustard-yellow centers and a faint purple blush on the outer petal appear. Plant the corms in groups in fall.

↑ 3in (7cm)

☀ pH Z3–8

PERENNIAL SMALL

Diascia barberae

TWINSPUR A mat-forming semievergreen perennial, sometimes sold as an annual, with narrow, oval green leaves and bell-shaped flowers in a wide range of colors from summer to fall. 'Blackthorn Apricot' (above) has apricot-pink flowers.

↑ 10in (25cm) ↔ 20in (50cm)

☀ Z8–9

BULB MEDIUM

Crocus speciosus

AUTUMN CROCUS This perennial corm produces grassy, silver-striped green leaves, which appear in late fall, just after the vase-shaped lilac-blue flowers with darker veins form. Plant the corms in late summer in groups between rocks.

↑ 6in (15cm)

☀ Z3–8

PERENNIAL SMALL

Dianthus 'Doris'

GARDEN PINK This mound-forming evergreen perennial has linear gray-green leaves and numerous fragrant pale pink semidouble flowers, each with a salmon-red ring in the center, which appear throughout summer. Deadhead regularly.

↑ 10in (25cm) ↔ 10in (25cm)

☀ Z3–8

PERENNIAL SMALL

Dodecatheon meadia

EASTERN SHOOTING STAR This summer-dormant, rosette-forming perennial has green basal leaves and magenta-pink spring flowers with reflexed petals. Plant where it will not overshadow mat-forming plants. Add organic matter to soil before planting.

↑ 12in (30cm) ↔ 6in (15cm)

☀ Z4–8 (N)

PERENNIAL SMALL

Dryas octopetala

MOUNTAIN AVENS A prostrate evergreen perennial that forms mats of oval, lobed, leathery dark green leaves. From late spring to early summer, it produces cup-shaped, creamy white flowers, followed by attractive, feathery seeds.

↑ 2½in (6cm) ↔ indefinite

☀ Z2–6 (N)
