

PERENNIAL MEDIUM

Papaver orientale

ORIENTAL POPPY An upright perennial with divided midgreen leaves. From early summer, it bears large saucer-shaped blooms with dark eyes. Plant it in groups at the front of a flower bed. 'Karine' (above) has salmon-pink flowers.

↑↔3ft (1m)

☀ Z3–8

SHRUB SMALL

Philadelphus 'Belle Etoile'

MOCK ORANGE An arching deciduous shrub with small midgreen leaves. From late spring to early summer, it bears highly fragrant white flowers, each with a pale purple mark at the base. Plant it near seating to enjoy the fragrance.

↑4ft (1.2m) ↔8ft (2.5m)

☀ Z5–8

SHRUB LARGE

Physocarpus opulifolius

NINEBARK This is a fast-growing deciduous shrub with lobed green leaves and, in early summer, it produces clusters of small white blooms. Many cultivars with purple to yellow foliage are also available.

↑10ft (3m) ↔15ft (1.5m)

☀ Z3–7 (N)

TREE SMALL

Prunus dulcis

COMMON ALMOND This small deciduous tree bears bowl-shaped, single or double pink flowers in spring before the lance-shaped, green leaves appear. Plant it in a border or as a specimen in a lawn. Edible nuts form in fall following a warm summer.

↑↔25ft (8m)

☀ Z7–9

TREE MEDIUM

Prunus 'Kanzan'

JAPANESE FLOWERING CHERRY This vase-shaped deciduous tree produces pink double spring flowers before the oval bronze leaves appear. The foliage turns green in summer and orange in fall. Plant it as a specimen in a lawn or flower bed.

↑↔30ft (10m)

☀ (!) Z5–8

BAMBOO SMALL

Pleiblastus variegatus

DWARF WHITE-STRIPE BAMBOO This compact evergreen bamboo has pale green canes and broad, creamy white striped green leaves. Plant it in a large container or a bed, or use it to line a path. It performs best in fertile soil.

↑32in (80cm) ↔indefinite

☀ Z6–11

BAMBOO LARGE

Phyllostachys aureosulcata* f. *aureocaulis

GOLDEN GROOVE BAMBOO A tall, upright, clump-forming bamboo with yellow canes and lance-shaped midgreen leaves. Good as a boundary screen; best in fertile soil. Use root barriers to confine it in small areas.

↑20ft (6m) ↔indefinite

☀ Z5–10

PERENNIAL SMALL

Potentilla 'Gibson's Scarlet'

CINQUEFOIL A small clump-forming perennial with lobed soft green leaves and sprays of small black-eyed bright scarlet flowers in summer. Use it to brighten up the front of a bed. Avoid hot dry sites.

↑18in (45cm) ↔24in (60cm)

☀ Z5–8

TREE LARGE

Quercus palustris

PIN OAK This pyramid-shaped deciduous tree has oval, deeply lobed green leaves that turn bright red in fall. It bears flowers in spring, followed by small-sized acorns. It is best grown as a street tree in most areas due to its large size.

↑70ft (20m) ↔40ft (12m)

☀ Z4–8 (N)
