

TREE LARGE

Betula papyrifera

PAPER BIRCH A tall, sparsely branched, narrowly conical tree with white peeling bark, pale orange beneath. The oval dark green leaves turn yellow in fall, and yellow catkins appear in spring. Use multistemmed forms as focal points.

↑70ft (20m) ↔30ft (10m)

☀ Z2-7 (N)

SHRUB LARGE

Berberis darwinii

DARWIN'S BARBERRY This evergreen shrub has small, glossy, prickly dark green leaves and, in spring, hanging clusters of dark orange flowers followed by blue-black berries. It makes intruder-proof windbreaks in informal or coastal gardens.

↑↔10ft (3m)

☀ (I) Z7-9

TREE LARGE

Betula pendula

EUROPEAN WHITE BIRCH A white-barked deciduous tree with sparse upright branches and slender cascading stems. Catkins appear in spring followed by diamond-shaped leaves, which turn yellow in fall. It suits exposed wild gardens.

↑80ft (25m) or more ↔30ft (10m)

☀ Z2-7

PERENNIAL MEDIUM

Briza media

COMMON QUAKING GRASS This perennial makes a tuft of grassy blue-green leaves. From late spring to midsummer, upright stems bear green heart-shaped flower heads that turn straw-colored. Plant at the front of a cottage or wildlife bed.

↑24in (60cm) ↔4in (10cm)

☀ Z4-11

PERENNIAL SMALL

Bergenia cordifolia

PIGSQUEAK This clump-forming evergreen perennial has leathery, midgreen rounded leaves and in early spring, red stems bearing clusters of deep pink bells appear. Use as weed-suppressing ground cover. Performs best in moist soil.

↑↔20in (50cm)

☀ Z3-8

SHRUB SMALL

Calluna vulgaris 'Silver Knight'

SCOTCH HEATHER A low-growing evergreen shrub with upright branches covered with scalelike gray leaves that tinge purple in winter, and lavender late-summer flower spikes. Ideal for ground cover or bed edging.

↑12in (30cm) ↔16in (40cm)

☀ (I) Z4-7

TREE LARGE

Carpinus betulus

EUROPEAN HORNBEAM A deciduous tree with oval, toothed dark green leaves, yellow in fall, with a pleated appearance and hoplike fruits in late summer. 'Fastigiata' (above) is compact and narrowly upright when young; becoming flame-shaped.

↑up to 80ft (25m) ↔70ft (20m)

☀ Z4-8

PERENNIAL MEDIUM

Centaurea dealbata

PERSIAN CORNFLOWER A clump-forming perennial with gray-green cut leaves. From early- to midsummer, it bears white-eyed pink flowers with fringed petals. Robust on poor soil, this drought-resistant flower suits windy coastal sites; may need staking.

↑3ft (1m) ↔24in (60cm)

☀ Z3-8

TREE MEDIUM

Chamaecyparis pisifera 'Filifera Aurea'

SAWARA CYPRESS This slow-growing, broadly conical evergreen conifer makes a mound of weeping branches that carry golden-yellow scalelike leaves. Use as a specimen in cold or coastal areas.

↑40ft (12m) ↔15ft (5m)

☀ Z4-8
