

PERENNIAL MEDIUM

Anemanthele lessoniana

PHEASANT'S TAIL GRASS This mound-forming semievergreen grass has narrow, arching leaves and purple-tinged flowers from midsummer to early fall. Summer foliage is a green-tinged orange, but the whole plant turns orange-brown in winter.

↕ 3ft (1m)

💧 Z8–10

PERENNIAL LARGE

Anemone hupehensis

CHINESE ANEMONE An upright perennial with dark green divided leaves. Large, simple pink or white flowers with yellow eyes open over a long period from mid- to late summer. 'Hadspen Abundance' (above) has dark pink blooms.

↕ 4ft (1.2m) ↔ 18in (45cm)

💧 Z5–7 (N)

PERENNIAL MEDIUM

Anemone rivularis

WINDFLOWER A clump-forming perennial, with hairy, dark green three-lobed leaves. It flowers in late spring and early summer, occasionally in fall. The slender branched stems carry 10–20 white blooms, often with a blue reverse.

↕ 24in (60cm) ↔ 12in (30cm)

💧 ! Z6–8

PERENNIAL SMALL

Aruncus aethusifolius

GOATSBEARD A compact, clump-forming, ground-cover perennial with deeply cut, fernlike midgreen leaves that turn yellow in fall. Sprays of tiny creamy white blooms appear from early- to midsummer. Water well during dry spells.

↕ 16in (40cm)

💧 Z3–9

PERENNIAL LARGE

Aruncus dioicus

GOATSBEARD An upright bushy perennial with long, midgreen divided leaves. It flowers between early- and midsummer. In the showier male plants, feathery creamy white plumes appear above the foliage. Water well during dry spells.

↕ 6ft (2m) ↔ 4ft (1.2m)

💧 Z3–7 (N)

PERENNIAL MEDIUM

Aquilegia canadensis

COLUMBINE A mound-forming perennial with ferny foliage. Slender upright flower stems bear nodding bell-shaped blooms, which are colored red and pale yellow, between mid-spring and midsummer. Plants spread via self-seeding.

↕ 24in (60cm) ↔ 12in (30cm)

💧 Z3–8 (N)

PERENNIAL SMALL

Asarum caudatum

WILD GINGER A ground-covering evergreen perennial, it smells like ginger when the green heart-shaped leaves are crushed. Purple hidden blooms with three tapering petals appear from mid- to late spring. It needs rich acid soil, and tolerates full shade.

↕ 3in (8cm) ↔ 10in (25cm) or more

💧 🌿 Z7–9 (N)

PERENNIAL LARGE

Aster cordifolius

Preferred name *Symphotrichum cordifolium* Blue wood aster is a large upright bushy perennial with small, oval, dark green toothed leaves. It bears sprays of small, pale blue daisy-like flowers on arching stems from late summer to fall.

↕ 4ft (1.2m) ↔ 3ft (1m)

💧 Z3–8 (N)
