

SHRUB LARGE

Camellia x williamsii

CAMELLIA The williamsii cultivars are evergreen shrubs with leathery, glossy oval leaves and single or double, white to deep pink spring flowers. 'Donation' (above) is upright, with rose-pink semidouble blooms. All forms tolerate full shade.

↑15ft (5m) ↔8ft (2.5m)

☀ pH 7–9

BULB LARGE

Cardiocrinum giganteum

GIANT LILY An upright bulbous perennial with heart-shaped green leaves. Trumpet-shaped white flowers with purple throats top sturdy stems in summer. Large seedpods follow the blooms. Plant in a sheltered site and rich soil.

↑10ft (3m)

☀ Z7–9

PERENNIAL MEDIUM

Chelone obliqua

TURTLEHEAD A bushy, erect perennial with broadly lance-shaped, dark green, heavily-veined, and toothed leaves. Short but showy spikes of purple-pink blooms appear from late summer to early fall. Tolerates boggy ground.

↑3ft (1m) ↔20in (50cm)

☀ Z3–9 (N)

PERENNIAL MEDIUM

Crocasmia 'Lucifer'

MONTBRETIA This clump-forming perennial has narrow, sword-shaped midgreen foliage. Sprays of vivid red, flared tubular blooms appear over many weeks in late summer. Best in light shade; deadhead to prevent self-seeding. Can be weedy.

↑3ft (1m) ↔10in (25cm)

☀ Z6–9

TREE SMALL

Cornus Jersey Star Series

DOGWOOD This spreading deciduous tree has oval, pointed, glossy green leaves with great fall color. From late spring to early summer, it features large blooms, which are followed by showy fruit. Resistant to anthracnose and powdery mildew.

↑↔25ft (8m)

☀ pH Z6–8

SHRUB SMALL

Deutzia x elegantissima 'Rosealind'

ELEGANT DEUTZIA A rounded deciduous shrub with green leaves and, in most cases, flaking bark. Clusters of star- or cup-shaped, fragrant pink-flushed white blooms appear from late spring to early summer.

↑4ft (1.2m) ↔5ft (1.5m)

☀ Z6–8

PERENNIAL SMALL

Corydalis flexuosa

BLUE CORYDALIS A clump-forming perennial with finely cut blue-green foliage, tinged purple. From spring to early summer, blue tubular flowers appear on wiry stems; the foliage dies back later in summer. 'Blue Panda' is compact and free-flowering.

↑12in (30cm) ↔8in (20cm)

☀ Z6–8

PERENNIAL SMALL

Dicentra cucullaria

DUTCHMAN'S BREECHES A clump-forming perennial with ferny blue-green leaves. Unusual twin-spurred yellow-tipped white flowers appear on arching stems in early spring. Shelter young growth from frost damage. Leaves die back in summer.

↑6in (15cm) ↔12in (30cm)

☀ (I) Z3–8 (N)

SHRUB SMALL

Cryptomeria japonica 'Globosa Nana'

JAPANESE CEDAR This dwarf evergreen conifer has a dense, bushy rounded habit and green foliage. Scalelike leaves closely overlap on the short, arching, cordlike branchlets. Plant in light shade only.
