

PERENNIAL SMALL

Helleborus x ericsmithii

HELLEBORE A clump-forming semievergreen perennial with toothed, silver-veined green leaves and pink-tinged or white saucer-shaped blooms with green-striped petals on reddish green stems in midwinter. Trim old leaves in late winter.

↑ 15in (38cm) ↔ 18in (45cm)

💧 ⓘ Z5–9

PERENNIAL MEDIUM

Helleborus x hybridus

LENTEN ROSE This clump-forming semievergreen perennial has green lobed leaves and bears single or double, plain or speckled white, green, yellow, pink, purple, or red blooms between midwinter and mid-spring. Remove old leaves in late winter.

↑↔ 24in (60cm)

💧 Z5–9

PERENNIAL SMALL

***Helleborus niger***

CHRISTMAS ROSE This semievergreen perennial forms clumps of lobed dark green leaves and white, aging to pinkish, saucer-shaped blooms with yellow stamens from midwinter to early spring. Tolerates heavy clay mixed with organic matter.

↑↔ 12in (30cm)

💧 ⓘ Z3–8

PERENNIAL SMALL

Hepatica nobilis

LIVERLEAF This slow-growing semievergreen perennial forms a neat dome of rounded, lobed, fleshy green leaves. In early spring, it bears cup-shaped blooms in shades of violet or purple. Plant it at the front of a shady bed.

↑ 3in (8cm) ↔ 5in (12cm)

💧 Z5–8

PERENNIAL SMALL

Hosta 'Fire and Ice'

PLAINTAIN LILY A clump-forming perennial with mounds of heart-shaped, ribbed dark green foliage with a bold white splash in the center of each leaf. Tall spires of lilac blooms appear in summer; cut them back after flowering. Protect from slugs.

↑ 16in (40cm) ↔ indefinite

💧 Z3–8

SHRUB MEDIUM

Hydrangea macrophylla

LACECAP HYDRANGEA A rounded shrub with large, oval light green leaves. Tiny blue flowers and larger pale blue to pink, petal-like florets form lace-cap flower heads from midsummer to early fall. The dried flowers provide winter interest.

↑ 6ft (2m) ↔ 8ft (2.5m)

💧 ⓘ Z6–9

SHRUB LARGE

Hydrangea paniculata

PANICLE HYDRANGEA An upright shrub with pointed, glossy mid- to dark green leaves, often deeply veined. In late summer, cone-shaped white or pink flower heads develop. 'Phantom' has extra large white blooms. Considered invasive in some areas.

↑↔ 10ft (3m)

💧 Z3–8

Hydrangea arborescens

SMOOTH HYDRANGEA A large rounded shrub with green tapered leaves. In midsummer, it bears flattened clusters of white flowers, which persist to provide interest in winter. 'Annabelle' (above) has extra large flower heads.

↑↔ 5ft (1.5m)
