

SHRUB MEDIUM

Hydrangea quercifolia

OAKLEAF HYDRANGEA This mound-forming shrub has lobed midgreen leaves with striking red and purple fall color. From midsummer to fall, it bears cone-shaped cream flower heads that turn a pink-tinged-white. Prefers neutral to acidic soil.

↑6ft (2m) ↔8ft (2.5m)

☹ pH Z5–9 (N)

PERENNIAL MEDIUM

Inula hookeri

HOOKER INULA This clump-forming perennial has upright stems with soft hairs that bear abundant lance-shaped, deeply veined midgreen leaves and yellow daisy-like blooms with long narrow petals from late summer to fall. Water during dry spells.

↑30in (75cm) ↔18in (45cm)

☹ Z5–8

PERENNIAL SMALL

Jeffersonia dubia

CHINESE TWINLEAF A woodland perennial with lobed, kidney-shaped or rounded blue-green leaves, initially tinged purple. From late spring to early summer, cup-shaped lavender-blue blooms appear above the emerging leaves. Tolerates full shade.

↑6in (15cm) ↔9in (23cm)

☹ pH Z5–8

BULB MEDIUM

Leucojum aestivum

SUMMER SNOWFLAKE This perennial bulb makes an upright clump of strap-shaped, narrow glossy leaves. In spring, leafless stems bear small clusters of bell-shaped, drooping white blooms with green tips. 'Gravetye Giant' (above) is popular.

↑24in (60cm) ↔3in (8cm)

☹ Z3–9

SHRUB MEDIUM

***Leucothoe fontanesiana*
'Rainbow'**

DROOPING LEUCOTHOE This mound-forming evergreen shrub has arching red-tinged branches with glossy lance-shaped leaves mottled and streaked with cream, pink, and maroon, and cream spring-flower clusters.

↑up to 5ft (1.5m) ↔6ft (2m)

☹ pH ! Z5–8 (N)

PERENNIAL MEDIUM

Lysimachia punctata

WHORLED LOOSESTRIFFE This vigorous, tall, upright perennial with midgreen leaves spreads rapidly to form large clumps. In summer, it produces spikes of bright yellow flowers. Best suited to larger plots; it can be aggressively invasive.

↑3ft (1m) ↔24in (60cm)

☹ Z4–8

TREE SMALL

Magnolia x soulangeana

SAUCER MAGNOLIA A small upright tree with a bushy habit and oval dark green leaves. From mid- to late spring, as the leaves unfurl, goblet-shaped pink to violet-purple or white blooms appear. 'Rustica Rubra' (above) has purple-red blooms.

↑↔20ft (6m)

☹ pH Z5–9

PERENNIAL MEDIUM

Maianthemum racemosum

FALSE SPIKENARD This is a medium-sized arching perennial with oval light green leaves that turn yellow in fall. Feathery sprays of white flowers appear from late spring to early summer, followed by fleshy red fruits.

↑3ft (1m) ↔24in (60cm)

☹ pH Z3–8 (N)

PERENNIAL MEDIUM

Onoclea sensibilis

SENSITIVE FERN This ground-covering creeping deciduous fern has deeply lobed, toothed light green fronds. Stiff brown fronds stand erect in late summer, lasting into winter. Requires neutral to acid soil. Water if dry in summer; can be invasive.

↑24in (60cm) ↔3ft (1m)

☹ pH Z4–9 (N)
