

BULB LARGE

Lilium longiflorum

EASTER LILY An upright perennial bulb with long, shiny lance-shaped leaves. In summer, this classic lily produces sprays of fragrant, large, outward-facing, funnel-shaped pure white flowers with petals that curve back slightly. Excellent for cutting.

↑3ft (1m)

☪ Z7–9

BULB LARGE

Lilium nepalense

HIMALAYAN LILY An upright or arching perennial bulb with lance-shaped scattered leaves. Its summer blooms are large, nodding, greenish white or greenish yellow trumpets with dark reddish purple throats and reflexed petals.

↑3ft (1m)

☪ pH Z7–8

BULB LARGE

Lilium pardalinum

LEOPARD LILY This is an upright perennial bulb with long narrow leaves. In summer, it produces nodding, turks-cap crimson flowers with orange markings and maroon spots on tall stems. The blooms are often scented.

↑5ft (1.5m)

☪ Z5–8 (N)

BULB LARGE

Lilium speciosum

SPECIES LILY This upright perennial bulb has broad lance-shaped leaves. Sprays of large, scented, pale pink or white turks-cap flowers that are splashed deeper pink appear from late summer to early fall. *L. speciosum* var. *rubrum* is popular.

↑4ft (1.2m)

☪ pH Z5–8

BULB LARGE

Lilium superbum

TURKSCAP LILY An upright perennial bulb with mottled stems bearing lance-shaped, green leaves. From late summer to early fall, it produces nodding, turks-cap, orange blooms, with maroon spots and green stars in the throats.

↑6ft (2m)

☪ pH Z4–8 (N)

PERENNIAL SMALL

Liriope muscari

LILYTURF This spreading evergreen perennial forms dense clumps of grasslike, glossy dark green leaves. In fall, upright, lavender- or purple-blue, thickly clustered flower spikes appear, followed by black berries. Considered invasive in some areas.

↑12in (30cm) ↔18in (45cm)

☪ pH Z6–10

PERENNIAL SMALL

***Luzula sylvatica* 'Aurea'**

GREATER WOODRUSH This clump-forming evergreen perennial has glossy grasslike leaves that become yellow-green in winter and spring, and green in summer. Tiny brown flowers appear from late spring to early summer. It tolerates deep shade.

↑16in (40cm) ↔18in (45cm)

☪ Z4–9

PERENNIAL MEDIUM

Lysimachia clethroides

GOOSENECK LOOSESTRIFE This vigorous, clump-forming, spreading perennial has narrow pointed leaves. Nodding spikes of small, white flowers become upright as they open in late summer. The tall stems may need support. Can be aggressive in gardens.

↑↔3ft (1m)

☪ Z3–8

PERENNIAL MEDIUM

Lysimachia punctata

WHORLED LOOSESTRIFE Vigorous and large, this upright, clump-forming perennial has oval midgreen leaves, and produces spikes of small bright yellow flowers over a long period in summer. It can be aggressive. 'Alexander' (above) has variegated foliage.

↑3ft (1m) ↔24in (60cm)

☪ Z4–8

SHRUB MEDIUM

Mahonia x media

MAHONIA An upright evergreen shrub with large leaves formed of dark green hollylike leaflets. Long, slender spikes of small, scented lemon-yellow flowers appear from late fall through winter. 'Charity' (above) has upright, then spreading spikes.

↑6ft (1.8m) ↔12ft (4m)

☪ Z7–9

SHRUB MEDIUM

Paeonia lutea* var. *ludlowii

TIBETAN PEONY This medium-sized, upright deciduous shrub produces deeply lobed dark green leaves, blue-green beneath. Nodding, cup-shaped yellow flowers appear in late spring. Plant it at the rear of a bed.

↑↔8ft (2.5m)
