

CLIMBER LARGE

Parthenocissus quinquefolia

VIRGINIA CREEPER This large, woody deciduous climber has divided, toothed, dull green leaves that blaze crimson in fall, when blue-black berries also appear. Grow this plant up a large fence or wall at the rear of a bed.

↑ 50ft (15m) or more

☀ Z4–9 (N)

PERENNIAL MEDIUM

***Persicaria bistorta* 'Superba'**

BISTORT This dense clump-forming, vigorous perennial produces oval, tapering green leaves. Spikes of soft pink blooms appear from early- to late summer. Deadhead it regularly to encourage repeat-flowering.

↑ 30in (75cm) ↔ 24in (60cm)

☀ Z4–8

SHRUB MEDIUM

***Philadelphus* 'Belle Etoile'**

MOCK ORANGE This deciduous shrub produces slightly arching stems of oval leaves and very fragrant, white single flowers with maroon centers in early summer. Grow it toward the rear of a bed in part shade.

↑ 6ft (1.8m) ↔ 4ft (1.2m)

☀ Z5–8

SHRUB LARGE

Pittosporum tobira

JAPANESE PITTOSPORUM This dense evergreen shrub has a neat, bushy-headed shape and leathery dark green leaves. In late spring, it produces clusters of very sweetly scented, small, starry white flowers that age to creamy yellow.

↑ 30ft (10m) ↔ 10ft (3m)

☀ Z8–10

SHRUB MEDIUM

Ribes sanguineum

FLOWERING CURRANT This spreading deciduous shrub has lobed aromatic leaves and small pink, red, or white bell-shaped flower clusters in spring, followed by white-coated black fruits. 'Pulborough Scarlet' (above) has deep crimson blooms.

↑ 6ft (2m) ↔ 8ft (2.5m)

☀ Z6–8 (N)

SHRUB LARGE

***Sambucus nigra* BLACK LACE**

BLACK ELDER A rounded deciduous shrub with fernlike, almost black foliage and, from late spring to early summer, scented, pale pink flower heads followed by blackish red fall berries. May die back in colder areas.

↑↔ 20ft (6m)

☀ Z5–7

PERENNIAL MEDIUM

***Tradescantia Andersoniana* Group**

SPIDERWORT This clump-forming perennial has lance-shaped arching leaves and, from early summer to fall, flowers in shades of white, red, blue, purple, or pink. 'Concord Grape' (above) has bright purple blooms.

↑↔ 24in (60cm)

☀ Z4–9 (N)

SHRUB MEDIUM

Vaccinium corymbosum

HIGHBUSH BLUEBERRY This soft fruit, deciduous bush has an upright, slightly arching habit. The foliage reddens in fall. Small white or pinkish flowers from late spring to early summer are followed by sweet, blue-black edible berries.

↑↔ up to 5ft (1.5m)

☀ Z3–7 (N)

PERENNIAL LARGE

Veronicastrum virginicum

CULVER'S ROOT An upright perennial with narrow, lance-shaped dark green leaves, punctuated in late summer by slender spikes of small, starry purple-blue, pink, or white flowers held on long stems. It is suitable for light shade only.

↑ 6ft (2m) ↔ 18in (45cm)

☀ Z3–8 (N)

SHRUB MEDIUM

Viburnum davidii

DAVID VIBURNUM This domed evergreen shrub has leathery, deeply veined dark green leaves. Clusters of small white flowers appear above the foliage in late spring. For decorative metallic blue berries on females, grow plants of both sexes.

↑↔ 5ft (1.5m)

☀ Z7–9

SHRUB LARGE

Viburnum rhytidophyllum

LEATHERLEAF VIBURNUM This large evergreen shrub has long, broad, veined, corrugated dark green leaves. Large, dense domed heads of small creamy white flowers appear in spring, followed by oval red fruits, which ripen to black.

↑ 15ft (5m) ↔ 12ft (4m)

☀ Z5–8
