

PERENNIAL LARGE

Rodgersia pinnata

RODGERSIA A clump-forming perennial with large, corrugated, divided dark green leaves and conical spires of small pink, red, or yellow-white summer blooms. 'Superba' (above) has bronze-tinged emerald leaves and bright pink flowers. ↑4ft (1.2m) ↔30in (75cm)

☀ Z4-7

PERENNIAL MEDIUM

Tradescantia Andersoniana Group

SPIDERWORT This tufted clump-forming perennial has erect branching stems and arching, narrow, lance-shaped midgreen leaves. 'Concord Grape' (above) has purple flowers. Grow in part shade around a pond. ↑↔24in (60cm)

☀ Z4-9 (N)

PERENNIAL MEDIUM

Primula pulverulenta

CANDELABRA PRIMROSE This upright perennial bears rosettes of large, oblong green leaves and upright white-coated stems studded with clusters of reddish purple flowers in early summer. Grow it in groups around a part-shaded pool. ↑3ft (1m) ↔24in (60cm)

☀ Z4-8

PERENNIAL MEDIUM

Saururus cernuus

LIZARD'S TAIL This perennial marginal water or bog plant has clumps of heart-shaped green leaves and slender nodding spires of tiny cream flowers in summer. It can become aggressive, so divide it regularly if growing in a bog garden. ↑3ft (1m) ↔indefinite

☀ Z5-10 (N)

PERENNIAL MEDIUM

Trollius chinensis

GLOBEFLOWER This clump-forming perennial has lobed, toothed green leaves and bowl-shaped golden-orange flowers with upright central stamens in summer. It tolerates light shade and looks best planted in groups around a pond edge. ↑3ft (1m) ↔18in (45cm)

☀ Z4-8

PERENNIAL SMALL

Primula veris

COWSLIP This evergreen or semievergreen perennial forms rosettes of oval to lance-shaped, toothed leaves and tight clusters of fragrant, nodding, tubular butter-yellow flowers on stout stems in spring. Try it in boggy meadows by pools. ↑↔10in (25cm)

☀ Z3-8

TREE LARGE

Taxodium distichum

BALD CYPRESS This conical deciduous conifer has slender fresh green leaves that turn rich orange-brown in fall. It has green female and red male cones. Plant it in boggy soil in a large garden at some distance from open water. ↑130ft (40m) ↔28ft (9m)

☀ 卐 Z5-11 (N)

PERENNIAL MEDIUM

Trollius x cultorum

GLOBEFLOWER This clump-forming perennial has deeply divided, fernlike green foliage and cup-shaped, orange-yellow double flowers from mid-spring to early summer. Use it to brighten up the banks of a pond or stream. ↑30in (75cm) ↔18in (45cm)

☀ Z4-7

PERENNIAL LARGE

Rheum palmatum

CHINESE RHUBARB This upright perennial has huge, jaggedly lobed dark green leaves, purple-red beneath. In early summer, sturdy stems bear large plumes of fluffy cream to red flowers. Allow plenty of space for large foliage. ↑↔6ft (2m)

☀ ! Z4-7

PERENNIAL LARGE

Thalictrum delavayi

YUNNAN MEADOW RUE A clump-forming perennial with fernlike midgreen leaves. From late summer to fall, it produces large billowing panicles of tiny lavender blooms. 'Hewitt's Double' (above) has dainty double flowers. ↑5ft (1.5m) ↔24in (60cm) or more

☀ Z4-7
