

PERENNIAL MEDIUM

Lysichiton americanus

YELLOW SKUNK CABBAGE This vigorous perennial marginal produces large green leaves followed by bright yellow bracts in spring. Avoid planting it near streams as it spreads rapidly, or too close to seating as it has a rancid odor.

†30in (75cm) ↔ 4ft (1.2m)

! Z6–9 (N)

PERENNIAL MEDIUM

Lysichiton camtschatcensis

ASIAN SKUNK CABBAGE This clump-forming perennial marginal has large bright green leaves and white spring flowers, which comprise petal-like bracts around spikes of tiny flowers. Its scent may be unpleasant.

†30in (75cm) ↔ 24in (60cm)

! Z5–9

PERENNIAL MEDIUM

Peltandra virginica

GREEN ARROW ARUM This perennial marginal is grown for its bold, arrow-shaped, glossy dark green leaves formed on long stalks. In late summer, it produces minute flowers inside upright bracts that look like green chili peppers.

†3ft (1m) ↔ 24in (60cm)

Z5–9 (N)

PERENNIAL MEDIUM

Pontederia cordata

PICKEREL WEED This upright perennial produces large, spear-shaped, glossy green leaves. In summer, it produces sturdy spikes of blue flowers. Remove the spent growth in fall. The variety 'Alba' has white flowers.

†30in (75cm) ↔ 18in (45cm)

Z3–11

WATER PLANT SMALL

Persicaria amphibia

WATER SMARTWEED A vigorous perennial aquatic with lance-shaped, dark green floating leaves. From midsummer to fall, it produces clusters of pink flowers on upright stems above the foliage, followed by glossy brown fruits.

†12in (30cm) ↔ 6ft (2m)

Z3–9 (N)

PERENNIAL MEDIUM

***Petasites japonicus*
var. *giganteus***

GIANT JAPANESE BUTTERBUR A spreading perennial with large round leaves, edible stems, and lime-green spring-flower spikes. Can be invasive. 'Variegatus' (above) has cream-splashed green leaves.

†3'½ft (1.1m) ↔ 5ft (1.5m)

Z5–9

PERENNIAL MEDIUM

Zantedeschia aethiopica

CALLA LILY This is a perennial marginal or bog plant with large, arrow-shaped dark green leaves. In summer, it produces white petal-like spathes, each with a yellow spike in the center. Overwinter plants indoor in colder areas.

†↔3ft (1m)

Z8–10

PERENNIAL MEDIUM

Saururus cernuus

LIZARD'S TAIL A perennial marginal with spreading clumps of heart-shaped leaves and soft tapering spires of tiny creamy white flowers in summer. Confine it in a basket in small ponds and water features as it can be aggressive.

†3ft (1m) ↔ indefinite

Z5–10 (N)

Scrophularia auriculata

WATER FIGWORT This is a tall, clump-forming evergreen perennial marginal with oval, rough-textured, cream-edged dark green leaves. In summer, it produces small brown flowers, which are attractive to bees.

†3ft (1m) ↔ 12in (30cm) or more

Z5–9
