

PERENNIAL SMALL

Lamium maculatum

SPOTTED DEADNETTLE A mat-forming semievergreen perennial with variegated midgreen foliage and hooded flower spikes from late spring to summer. 'White Nancy' (above) bears white flowers above silver leaves. Considered invasive in some areas. ↑6in (15cm) ↔3ft (1m)

☹ Z4–8

PERENNIAL LARGE

Macleaya microcarpa

PLUME POPPY An upright perennial with large, deeply lobed gray-green leaves, white beneath. In summer, sprays of tiny buff-pink flowers form on tall stems above the foliage. Grow it near the rear of a bed in light shade only. ↑8ft (2.5m) ↔4ft (1.2m)

☹ Z4–9

BULB MEDIUM

Narcissus 'Actaea'

DAFFODIL This late-spring-flowering perennial bulb bears narrow, strap-shaped gray-green leaves and white flowers with shallow, red-rimmed yellow cups. Plant the bulbs in groups close to a partly shaded wall, fence, or hedge in fall. ↑16in (40cm)

☹ ⓘ Z3–8

SHRUB MEDIUM

Paeonia delavayi

TREE PEONY This is an upright deciduous shrub with deeply lobed dark green leaves that are blue-green beneath. It produces nodding, cup-shaped dark red flowers in late spring. Plant it next to a wall or fence.

↑↔6ft (2m)

☹ Z4–8

PERENNIAL SMALL

Pulmonaria officinalis

LUNGWORT This semievergreen perennial bears oval, pointed green leaves with white spots and clusters of funnel-shaped pink, blue, or white flowers in spring. It is shade- and drought-tolerant. 'Sissinghurst White' (above) has white flowers.

↑12in (30cm) ↔24in (60cm)

☹ Z4–8

PERENNIAL SMALL

Saxifraga 'Aureopunctata'

LONDON PRIDE A low-growing perennial that forms rosettes of mid- to dark green- and yellow-variegated leaves. From late spring to early summer, masses of star-shaped, tiny pink flowers appear. Grow it at the front of a bed.

↑12in (30cm) ↔indefinite

☹ Z6–7

PERENNIAL MEDIUM

Tolmiea menziesii

PIGGYBACK PLANT This semievergreen perennial has textured, ivy-shaped green leaves and spikes of nodding, tubular greenish yellow flowers in spring. 'Taff's Gold' (above) has cream and green variegated foliage.

↑24in (60cm) ↔6ft (2m)

☹ Z6–9 ⓘ

PERENNIAL MEDIUM

Tricyrtis formosana

TOAD LILY This upright perennial produces dark green leaves with purplish green spots. Star-shaped, purple-spotted cream flowers appear from late summer to early fall. Grow it in the shelter of a wall in full or part shade.

↑32in (80cm) ↔18in (45cm)

☹ Z6–9

PERENNIAL MEDIUM

Uvularia grandiflora

BELLWORT This clump-forming perennial has lance-shaped leaves and clusters of long, bell-shaped, yellow mid- to late spring flowers with slightly twisted petals that hang from slender stems. It is useful for deep shade beside walls and hedges.

↑24in (60cm) ↔12in (30cm)

☹ Z4–9 ⓘ

SHRUB MEDIUM

Viburnum acerifolium

MAPLELEAF VIBURNUM This upright deciduous shrub has corrugated, jagged-edged green leaves that turn orange, red, and purple in fall. Clusters of small creamy white early summer flowers are followed by berries that ripen to purple-black.

↑6ft (2m) ↔4ft (1.2m)

☹ Z4–8 ⓘ

SHRUB LARGE

Viburnum x bodnantense

BODNANT VIBURNUM An upright deciduous shrub with bronze leaves that turn dark green. From late fall to early spring, clusters of sweetly scented pink to white-pink flowers appear on bare branches. 'Dawn' (above) has dark pink buds and pink flowers.

↑10ft (3m) ↔6ft (2m)

☹ ⓘ Z5–8
