☀ Z5–8

CLIMBER LARGE

Holboellia coriacea

SAUSAGE VINE This evergreen climber has dark green leaves divided into three leaflets. Sausage-shaped purple seedpods follow the clusters of fragrant pale purple male and greenish white female spring flowers. Provide shelter in colder areas.

↑ 15ft (5m)

☀ Z9–11

SHRUB LARGE

Itea virginica

VIRGINIA SWEETSPIRE This spreading shrub has arching stems that bear oval, spiny dark green leaves. From midsummer to early fall, it produces decorative greenish white racemes. Grow dense suckering colonies against wall.

☀ 🌱 Z5–9 (N)

CLIMBER MEDIUM

Clematis 'White Swan'

CLEMATIS This large deciduous clematis produces divided green foliage and nodding, open bell-shaped white flowers from late spring to early summer. Grow it on wires or through a large shrub. Prune after flowering.

↑ 10ft (3m)

☀ Z4–9

CLIMBER LARGE

Hydrangea anomala* subsp. *petiolaris

CLIMBING HYDRANGEA A self-clinging deciduous climber with woody stems and rounded dark green leaves. In summer, it bears flattened white flower heads. Grow against a support, such as a fence or wall.

↑ 50ft (15m)

☀ 🌱 Z4–8

CLIMBER MEDIUM

Jasminum humile

ITALIAN JASMINE An evergreen shrub with glossy green leaves divided into leaflets and fragrant, tubular yellow flower clusters from early spring to early summer. Grow in a sheltered site. 'Revolutum' (above) is harder than the species.

↑ 8ft (2.5m)

☀ Z7–9

CLIMBER MEDIUM

Lathyrus odoratus

SWEET PEA Moderately fast-growing annual tendril climber, it has oval midgreen leaves with tendrils. From summer to early fall, scented flowers in shades of pink, blue, purple, or white appear. Dwarf non-climbing cultivars are also available.
