

Plants for walls, fences, and vertical surfaces

CLIMBER LARGE

Lonicera x brownii

SCARLET TRUMPET HONEYSUCKLE This twining semievergreen or deciduous climber has rounded blue-green leaves. 'Dropmore Scarlet' (above) has unscented, tubular scarlet blooms from summer to early fall. Provide a large support.

†12ft (4m)

☹️ ⚠️ Z4–8

CLIMBER LARGE

Lonicera x tellmanniana

TELLMANN'S HONEYSUCKLE A woody-stemmed twining deciduous climber with oval leaves; the upper leaves are joined and resemble saucers. Yellowish orange flowers are carried in clusters at the ends of shoots from late spring to summer.

†15ft (5m)

☹️ ⚠️ Z7–9

CLIMBER LARGE

Parthenocissus henryana

CHINESE VIRGINIA CREEPER A vigorous self-clinging deciduous climber with palm-shaped, cream-veined dark green leaves. In fall, the foliage turns fiery crimson when blue-black berries also form. Ideal for a house wall; prefers partial shade.

†30ft (10m) or more

☹️ Z7–8

CLIMBER LARGE

Parthenocissus tricuspidata

BOSTON IVY A self-clinging deciduous climber with large, lobed green leaves that turn spectacular shades of crimson in fall. Use it to cover large expanses of a wall or boundary fence. Provide sturdy support. Considered invasive in some areas.

†70ft (20m)

☹️ Z4–8

CLIMBER LARGE

Lonicera periclymenum

WOODBINE A twining climber with dark green leaves. Red berries follow fragrant white to yellow summer flowers. Prune it in early spring. 'Serotina' (above) has creamy white flowers, streaked dark red-purple. Considered invasive in some areas.

†22ft (7m)

☹️ ⚠️ Z5–9

CLIMBER LARGE

Parthenocissus quinquefolia

VIRGINIA CREEPER This is a vigorous self-clinging deciduous climber grown for its rounded, divided green leaves that turn vibrant red and orange in fall. Provide it with a large support, such as a house wall or boundary fence.

†50ft (15m) or more

☹️ Z4–9 Ⓝ

CLIMBER LARGE

Rosa 'Albéric Barbier'

RAMBLING ROSE This vigorous semievergreen rambler rose has disease-resistant bright green leaves. Clusters of slightly fragrant, creamy white double blooms are produced in one flush and last several weeks during summer.

†15ft (5m)

☹️ Z5–9

CLIMBER MEDIUM

***Rosa* 'Constance Spry'**

ENGLISH SHRUB ROSE This rose has grayish green leaves and numerous large, bowl-shaped, pink double flowers, with a rich myrrhlike scent, which appear for about a month during summer. Add a mulch of organic matter each spring.

†6ft (2m)

☹️ Z4–9
