

CLIMBER LARGE

Schizophragma integrifolium

CHINESE HYDRANGEA VINE This large self-clinging deciduous climber has heart-shaped or oval green leaves and clusters of tiny blooms with petal-like bracts in summer. Grow it against a large support.

†40ft (12m)

☀ Z5–9

CLIMBER LARGE

Solanum crispum

CHILEAN POTATO TREE A scrambling semievergreen climber with oval green leaves and fragrant, yellow-eyed violet-blue flower clusters from summer to fall. Grow in a warm lightly shaded spot.

'Glasnevin' (above) has purple-blue flowers.

†20ft (6m)

☀ ⚠ Z9–11

CLIMBER LARGE

Rosa 'Mermaid'

HYBRID BRACTEATA ROSE A slow-growing climbing rose with disease-resistant, glossy green foliage. Flowering repeatedly from summer to fall, it bears flat, primrose-yellow single blooms. The stems have large hooked thorns; plant it to deter intruders.

†20ft (6m)

☀ Z7–9

CLIMBER LARGE

Rosa 'New Dawn'

CLIMBING ROSE This climbing rose has disease-resistant, glossy green foliage and flowers repeatedly from summer to fall, producing clusters of fragrant, pale pink double flowers. Deadhead regularly to prolong the display.

†15ft (5m)

☀ Z5–9

SHRUB LARGE

Stachyurus praecox

STACHYURUS A deciduous shrub with purplish red shoots and bell-shaped, pale greenish yellow blooms that hang from bare stems from late winter to early spring. The slim dark green leaves appear soon after. Train against a wall or fence.

†12ft (4m) ↔ 10ft (3m)

☀ 🌿 Z6–8

CLIMBER LARGE

Trachelospermum jasminoides

STAR JASMINE This twining evergreen climber has clusters of sweetly fragrant white flowers in summer. Its glossy dark green leaves turn bronze in fall and winter, and it is ideal for partly shaded walls.

†28ft (9m)

☀ Z8–10

CLIMBER MEDIUM

Tropaeolum speciosum

FLAME CREEPER A perennial climber with twining stems and rounded blue-green leaves divided into oval leaflets. In summer, it bears scarlet flowers followed by spherical bright blue fruits. Best in fertile soil; it tolerates light shade only.

†10ft (3m)

☀ 🌿 Z8–11
