

TREE SMALL

Sour cherry

Prunus cerasus This small tree has white or pink flowers in spring, followed by sharp-tasting red berries in summer. Select self-fertile varieties on dwarfing rootstocks. Best in light shade in large containers of soil-based potting mix; water and feed well.

↕ 12ft (4m)

🌱 Z4–8

SHRUB MEDIUM

Black currant

Ribes nigrum This upright branching shrub flowers in spring, and bears strings of glossy black sharp-tasting fruits in summer. Grow it in a large container of soil-based potting mix in light shade. Mulch in spring; water well in summer.

↕ 5ft (1.5m)

🌱 Z3–8

CLIMBER MEDIUM

Blackberry

Rubus fruticosus This vigorous climbing shrub flowers in spring, and bears clusters of sweet black berries in summer. It is best trained against a support; plant in a large container of soil-based potting mix. Be careful of its sharp thorns.

↕ 8ft (2.5m)

🌱 Z3–8

CLIMBER MEDIUM

Thornless blackberry

Rubus fruticosus This climbing shrub has dissected leaves and thornless stems and, from late summer to fall, clusters of large black berries. Plant in a large container of soil-based potting mix in light shade; provide support for its stems.

↕ 8ft (2.5m)

🌱 Z3–8

ANNUAL/BIENNIAL SMALL

Summer radish

Raphanus sativus This type of radish is grown for its crisp, rounded peppery roots. Sow seeds in windowboxes and pots from spring to early fall. Pull the roots once large enough, after five weeks, then re-sow. Ideal for light shade; water well. Can be invasive.

↕ 8in (20cm)

🌱

PERENNIAL LARGE

Rhubarb

Rheum x hybridum A vigorous perennial with large, glossy green leaves, it is grown for its sharp-tasting stems, which are eaten cooked. Plant in a large container of soil-based potting mix; water and feed well. Harvest stems from spring to midsummer.

↕ 6ft (2m)

🌱 Z3–8

SHRUB MEDIUM

Red currant

Ribes rubrum A branching, spring-flowering shrub with strings of sharp-tasting glossy red fruits. Plant in a large container of soil-based potting mix. Mulch in spring; water well during summer. Considered invasive in some Northeast and Northwest areas.

↕ 5ft (1.5m)

🌱 Z3–8

PERENNIAL SMALL

Sweet violets

Viola odorata A semievergreen perennial with heart-shaped leaves and, from late winter to early spring, fragrant, flat-faced violet flowers, which can be added to salads or crystallized to decorate cakes and desserts. 'Alba' (above) has white flowers.

↕ 8in (20cm) ↔ 12in (30cm)

🌱 Z6–8
