

PERENNIAL MEDIUM

Helleborus foetidus

STINKING HELLEBORE A bushy evergreen perennial with palm-shaped glossy leaves divided into narrow leaflets and nodding, pale green, red-margined cup-shaped blooms from late winter to early spring. Grow in dappled shade.

↕↔24in (60cm)

💧 ⚠️ Z6–9

PERENNIAL MEDIUM

Helleborus orientalis

LENTEN ROSE This evergreen woodland perennial has leathery dark green leaves divided into slim leaflets and saucer-shaped white or greenish cream flowers, which age to dark pink from midwinter to spring. Deadhead to prevent self-seeding.

↕24in (60cm) ↔18in (45cm)

💧 Z4–9

PERENNIAL SMALL

Hosta 'Revolution'

PLANTAIN LILY A clump-forming perennial with dark green leaves that have irregular creamy white central markings and green speckles. Spikes of lavender flowers appear briefly in summer. Grow it in dappled shade to add bright highlights to beds.

↕20in (50cm) ↔3½ft (1.1m)

💧 Z3–9

BULB MEDIUM

Hyacinthoides non-scripta

ENGLISH BLUEBELL A vigorous perennial bulb with narrow, strap-shaped, glossy dark green leaves. In spring, midblue or, occasionally, white, bell-shaped fragrant flowers hang from arching stems. Grow it in large swaths beneath deciduous trees.

↕16in (40cm)

💧 ⚠️ Z5–7

BULB MEDIUM

Leucojum aestivum

SUMMER SNOWFLAKE This perennial bulb makes an upright clump of narrow, strap-shaped, glossy dark green leaves. Small clusters of green-tipped white, drooping bell-shaped blooms form in spring.

'Gravetye Giant' (above) is popular.

↕24in (60cm)

💧 Z3–9

PERENNIAL SMALL

Hylomecon japonica

WOOD POPPY This vigorous, spreading perennial has dark green soft leaves divided into toothed leaflets. From late spring to summer, cup-shaped, bright yellow, poppylike single flowers appear. Plant it in a large woodland garden.

↕12in (30cm) ↔8in (20cm)

💧 Z6–8

PERENNIAL MEDIUM

Kirengeshoma palmata

YELLOW WAX BELLS This upright perennial has rounded, slightly hairy, lobed bright green leaves on purple-red stems. From late summer to fall, small clusters of narrow, funnel-shaped, pendulous creamy yellow flowers appear. Grow it in moist soil.

↕3ft (1m) ↔24in (60cm)

💧 🌿 Z5–8

BULB LARGE

Lilium martagon

TURKSCAP LILY This clump-forming perennial bulb has lance-shaped leaves on erect stems and nodding, dark-spotted, pink or purple summer flowers with swept-back petals and protruding stamens. Grow on the edge of a woodland garden.

↕up to 6ft (2m)

💧 Z3–8

SHRUB LARGE

Kalmia latifolia

MOUNTAIN LAUREL A bushy evergreen shrub with oval, glossy green leaves and, from late spring to early summer, clusters of cup-shaped pink flowers that open from attractively crimped buds. Grow it in dappled shade between tree canopies.

↕↔10ft (3m)

💧 🌿 ⚠️ Z4–9 🌿

BULB LARGE

Lilium nepalense

HIMALAYAN LILY This upright perennial bulb has lance-shaped green leaves and trumpet-shaped, scented greenish cream flowers with chocolate-red throats. Plant it in part shade in deep fertile soil, just beyond the tree canopies.

↕3ft (1m)
