

SHRUB LARGE

Mahonia x media

MAHONIA An architectural evergreen shrub with long dark green leaves divided into spiny leaflets. In winter, it produces long clusters of scented yellow flower spikes. 'Charity' (above) is a popular variety. Ideal for dry shade.

↑15ft (5m) ↔12ft (4m)

☾ Z7-9

PERENNIAL MEDIUM

Maianthemum racemosum

FALSE SPIKENARD An upright perennial, with oval, prominently veined green leaves. It bears scented, fluffy cream plumes from mid- to late spring, followed by red berries. Shelter from wind. Best planted in mass in larger gardens.

↑3ft (1m) ↔24in (60cm)

☾ pH Z3-8 (N)

PERENNIAL MEDIUM

Matteuccia struthiopteris

OSTRICH FERN This large, shuttlecock-shaped deciduous fern produces long pale green fronds divided into toothed-edged segments. It is ideal for growing in the damp soil just beyond tree canopies in a woodland setting.

↑3ft (1m) ↔18in (45cm)

☾ Z2-8 (N)

PERENNIAL LARGE

Meconopsis betonicifolia

BLUE POPPY A short-lived, rosette-forming perennial with serrated bluish green leaves and saucer-shaped, pure blue early summer blooms. Can be difficult to grow. Best in dappled shade in the cool moist gardens of the Pacific Northwest.

↑4ft (1.2m) ↔18in (45cm)

☾ pH Z7-8

PERENNIAL MEDIUM

Miliun effusum 'Aureum'

GOLDEN MILLET GRASS A semievergreen perennial, also sold as annual foliage, with narrow, arching golden-yellow leaves and airy sprays of yellow summer flower heads. Allow it to self-seed and form carpets in dappled shade just beyond tree canopies.

↑24in (60cm) ↔12in (30cm)

☾ Z5-8 (N)

BULB MEDIUM

Narcissus 'February Gold'

DAFFODIL This perennial bulb has narrow midgreen leaves and, from late winter to early spring, golden-yellow blooms with swept-back petals and long trumpets. Plant the bulbs in groups in fall, and allow it to naturalize beneath deciduous trees.

↑12in (30cm)

☾ ! Z3-9

BULB MEDIUM

Narcissus pseudonarcissus

WILD DAFFODIL This perennial bulb has erect, strap-shaped midgreen leaves that are tinged blue-gray and, in early spring, nodding flowers with overlapping, straw-yellow petals and darker yellow trumpets. Plant the bulbs in fall.

↑12in (30cm)

☾ ! Z5-9

PERENNIAL SMALL

Omphalodes cappadocica

NAVELWORT This is a clump-forming perennial with deeply veined, oval to heart-shaped midgreen leaves. In early spring, it forms airy heads of white-eyed sky-blue blooms. 'Cherry Ingram' (above) is a more compact, deep blue form.

↑12in (30cm) ↔24in (60cm)

☾ Z6-8

SHRUB LARGE

Osmanthus x burkwoodii

OSMANTHUS An dense evergreen shrub with glossy dark green foliage and a profusion of small, highly fragrant white flowers from mid- to late spring. Use it as a tall formal or informal hedge; prune the plant after flowering.

↑↔10ft (3m)

☾ Z7-9

PERENNIAL SMALL

Pachysandra procumbens

ALLEGHENY SPURGE This clump-forming evergreen perennial has rounded, lobed dark green leaves. Spikes of fragrant, white bottlebrush-like flowers are borne in spring as new leaves develop. Use it as ground cover in deep shade beneath trees.

↑10in (25cm) ↔24in (60cm)

☾ pH Z5-9 (N)
