

BULB MEDIUM

Chionodoxa forbesii

GLORY OF THE SNOW An early-spring-flowering perennial bulb with linear midgreen foliage and star-shaped blue flowers with white eyes. Ideal for rock gardens with sharp drainage. Grow in light shade. Plant the bulbs in groups in fall.

↑ 6in (15cm)

☀ Z3–8

BULB SMALL

Crocus banaticus

BYZANTINE CROCUS This fall-flowering perennial corm produces pale violet cup-shaped flowers before the narrow basal leaves appear in spring. Plant it in groups where it will receive some sun during the day.

↑ 4in (10cm)

☀ Z3–8

PERENNIAL SMALL

Dicentra formosa

WESTERN BLEEDING HEART This spreading perennial forms finely divided gray-green leaves and clusters of pendent, heart-shaped pink flowers from late spring to early summer. Varieties include 'Bacchanal' (above) with deep crimson blooms.

↑ 18in (45cm) ↔ 12in (30cm)

☀ Z3–9 (N)

PERENNIAL SMALL

Dodecatheon hendersonii

SAILOR CAPS This clump-forming perennial has a rosette of oval green leaves, above which deep pink flowers with reflexed petals appear in late spring. It prefers rich soil; all growth dies down in summer. Keep the soil moist during the growing season.

↑ 12in (30cm) ↔ 10in (25cm)

☀ Z5–7 (N)

PERENNIAL SMALL

Epimedium x versicolor

BISHOP'S HAT This clump-forming evergreen perennial has heart-shaped green leaves, copper-red when young, and sprays of small pink and yellow spring flowers. Tolerates full shade. 'Sulphureum' (above) has primrose-yellow blooms.

↑↔ 12in (30cm)

☀ Z5–9

BULB SMALL

Eranthis hyemalis

WINTER ACONITE This clump-forming tuber produces stalkless, cup-shaped yellow flowers with leaflike ruffs from late winter to early spring. The leaves are lobed and green. Grow it in pockets between rocks, and combine with spring bulbs.

↑ 4in (10cm)

☀ ! Z4–7

BULB MEDIUM

Erythronium californicum

FAWN LILY This clump-forming perennial bulb has mottled dark green leaves and creamy white flowers with reflexed petals in spring. 'White Beauty' (above) has creamy white flowers with red-brown throats. Plant the bulbs in fall.

↑ 14in (35cm)

☀ Z3–9 (N)

BULB MEDIUM

Galanthus nivalis

SNOWDROP This dwarf perennial bulb has grassy gray-green leaves that disappear in summer. From late winter to early spring, 'Flore Pleno' (above) has green-tinged white, fragrant double blooms. Plant it in soil that does not dry out in summer.

↑ 6in (15cm)

☀ ! Z3–8

BULB MEDIUM

Galanthus 'Sam Arnott'

SNOWDROP This dwarf perennial bulb produces grasslike gray-green leaves and, in late winter, small, nodding white flowers with green marks on the inner segments. Plant it in groups in soil that does not dry out in summer.

↑ 6in (15cm)

☀ Z4–8

PERENNIAL SMALL

Galium odoratum

SWEET WOODRUFF This spreading perennial has small, palm-shaped, dark green leaves and small, starry, divided white flowers in summer. Can be used in large, partly shaded rock gardens where it will spread freely between the rocks.

↑ 6in (15cm) ↔ 12in (30cm) or more

☀ Z4–8

SHRUB SMALL

Gaultheria procumbens

WINTERGREEN This dwarf evergreen shrub has oval, leathery dark green leaves, tinged red in winter. Scarlet berries follow the pink-flushed white summer blooms. Grow it for winter color in part or deep shade. Needs moist soil and does best in cooler areas.

↑ 6in (15cm) ↔ indefinite
