☹ pH Z4–7

PERENNIAL SMALL

Geranium cinereum

CRANESBILL A spreading perennial with round, deeply lobed gray-green leaves. Cup-shaped pink or mauve flowers with deep purple centers and veins appear from late spring to summer. 'Ballerina' (above) has pale pink blooms.

↑ 4in (10cm) ↔ 12in (30cm)

☹ Z5–9

SHRUB SMALL

***Hebe ochracea* 'James Stirling'**

HEBE A dense, dome-shaped dwarf shrub with bright yellow-green scalelike foliage. In late spring, small white flowers appear. Use it to provide structure in a rock garden and combine with low-growing perennials.

↑ 18in (45cm) ↔ 24in (60cm)

☹ Z8–10

PERENNIAL SMALL

Helleborus purpurascens

HELLEBORE A clump-forming perennial with dark green leaves divided into lance-shaped leaflets and cup-shaped, nodding purple blooms flushed pink-purple or light green inside and with cream stamens in spring. Cut untidy foliage in fall or late winter.

↑↔ 12in (30cm)

☹ ! Z4–8

PERENNIAL SMALL

Hepatica nobilis

LIVERLEAF A clump-forming semievergreen perennial with silky-haired leaves featuring three rounded lobes. In early spring, it produces rounded violet or purple blooms with white stamens. Grow it in soil that does not dry out in summer.

↑ 3in (8cm) ↔ 5in (12cm)

☹ Z5–8

SHRUB SMALL

Juniperus procumbens

DWARF JAPANESE JUNIPER This compact, mat-forming evergreen conifer produces dense prickly leaves that provide good ground cover. It bears small, round brown or black fruits. Plant it in a rock garden in dappled or light shade.

↑ 8in (20cm) ↔ 30in (75cm)

☹ Z4–9

PERENNIAL SMALL

Lewisia cotyledon

SISKIYOU LEWISIA This clump-forming evergreen perennial has rosettes of dark green foliage. From late spring to summer, funnel-shaped flowers in shades of pink, yellow, or orange appear. Grow it in light shade in free-draining soil.

↑ 12in (30cm) ↔ 6in (15cm)

☹ Z6–8 (N)

BULB MEDIUM

Muscari armeniacum

GRAPE HYACINTH This spring-flowering bulb produces grasslike green leaves and short spikes of small, fragrant, bell-shaped deep blue flowers held in cone-shaped clusters. Plant it in cracks between rocks.

↑ 8in (20cm)

☹ Z4–8

BULB MEDIUM

***Narcissus* 'Jumblye'**

DAFFODIL This bulb has strap-shaped leaves and golden single flowers with orange-yellow cups in early spring. Other dwarf daffodils come in shades of orange or white, sometimes bicolored. Plant the bulbs in groups in fall.

↑ 8in (20cm)

☹ ! Z4–9

BULB MEDIUM

***Narcissus* 'Tete-a-tete'**

DAFFODIL A spring bulb with strap-shaped leaves and up to three yellow blooms per stem. Other dwarf varieties of daffodils come in shades of orange or white, sometimes bicolored. Plant the bulbs in groups in fall throughout a rock garden.

↑ 12in (30cm)

☹ ! Z4–9

PERENNIAL SMALL

Origanum vulgare

OREGANO This is a small clump-forming perennial that forms a dense mat of aromatic, rounded green leaves. It may also bear tiny mauve flowers in summer. Use it to fill gaps in a partly shaded rock garden.
