

PERENNIAL SMALL

Oxalis adenophylla

CHILEAN WOOD SORREL A mat-forming perennial with rounded gray-green leaves divided into narrow wavy leaflets. In spring, rounded purplish pink flowers with darker purple eyes form. Use it to spread over the rocks in a shady rock garden.

‡2in (5cm) ↔ 4in (10cm)

☀ Z6–9

PERENNIAL SMALL

Phlox stolonifera

CREeping PHLOX A low-growing evergreen perennial with oval pale green leaves and saucer-shaped purple blooms in early summer. 'Bruce's White' (above) has white blooms. It is ideal for a shaded rock garden; cut back after flowering.

‡6in (15cm) ↔ 12in (30cm)

☀ pH Z4–8 (N)

PERENNIAL SMALL

Primula marginata

ALPINE PRIMROSE This semi- or fully evergreen perennial has rosettes of oblong, toothed midgreen leaves. Grow with spring bulbs at the front of a rock garden. Lavender-blue spring flowers top upright stems on 'Kesselring's Variety' (above).

‡6in (15cm) ↔ 12in (30cm)

☀ Z4–8

BULB MEDIUM

Puschkinia scilloides

STRIPED SQUILL This perennial bulb produces strap-shaped green leaves and, in spring, clusters of bell-shaped white flowers. Grow it with other spring bulbs, such as grape hyacinths and species tulips dappled shade.

‡6in (15cm)

☀ Z4–8

PERENNIAL SMALL

Sedum kamtschaticum

STONECROP A spreading semievergreen perennial with fleshy, oval cream-edged leaves and clusters of orange-flushed yellow flowers in early fall. 'Variegatum' (above) has pink-tinted midgreen leaves. Established plants are drought tolerant.

‡3in (8cm) ↔ 8in (20cm)

☀ (I) Z3–8

BULB MEDIUM

Roscoea cauleyoides

ROSCEA A compact, summer-flowering tuberous perennial bulb, which produces linear dark green leaves and short spikes of orchidlike yellow, purple, or white flowers. Plant it in groups in a sheltered site in dappled shade.

‡10in (25cm)

☀ pH Z6–9

PERENNIAL SMALL

Silene alpestris

ALPINE CAMPION This evergreen perennial has narrow, lance-shaped midgreen leaves and small, rounded, fringed white, occasionally pink-flushed, flowers from late spring to early summer. Grow it in light dappled shade in gritty soil.

‡6in (15cm) ↔ 8in (20cm)

☀ Z4–7

PERENNIAL SMALL

Viola cornuta

HORNED VIOLET This small, spreading evergreen perennial produces oval toothed-edged leaves and flat-faced purplish blue, occasionally white, flowers from spring to late summer. Plant it in groups in a rock garden.

‡8in (20cm) ↔ 8in (20cm) or more

☀ Z6–9

BULB SMALL

Scilla mischtschenkoana

SQUILL An early-spring-flowering perennial bulb with strap-shaped basal leaves. Cup-shaped pale blue flowers with darker blue veins appear from late winter to early spring. Plant the bulbs in groups in fall throughout a rock garden.

‡4in (10cm)

☀ (I) Z4–7
