

PERENNIAL MEDIUM

Onoclea sensibilis

SENSITIVE FERN A creeping deciduous fern with handsome arching, almost triangular, divided, fresh pale green fronds, often suffused pinkish brown in spring. In fall, fronds turn an attractive yellowish brown color.

†24in (60cm) ↔3ft (1m)

☹️ pH Z4–9 (N)

PERENNIAL SMALL

***Ophiopogon planiscapus* 'Nigrescens'**

MONDO GRASS This clump-forming evergreen perennial has narrow grasslike leaves and small, bell-shaped white or mauve summer flowers followed by black berries. Plant it to edge beds.

†9in (23cm) ↔12in (30cm)

☹️ Z6–10

SHRUB LARGE

Osmanthus heterophyllus

FALSE HOLLY This evergreen shrub has hollylike, glossy bright green leaves and, in fall, tiny, fragrant white flowers. Grow it as a screen or in a border; protect it from hard frosts. 'Aureomarginatus' (above) has gold-edged leaves.

†↔15ft (5m)

☹️ Z7–9

PERENNIAL SMALL

Pachysandra procumbens

ALLEGHENY SPURGE A clump-forming evergreen perennial with rounded, lobed dark green leaves and spikes of small, white mint-scented flowers in spring. Tolerates full shade; grow it as ground cover beneath trees and shrubs.

†10in (25cm) ↔24in (60cm)

☹️ pH Z5–9 (N)

PERENNIAL MEDIUM

***Paeonia lactiflora* 'Sarah Bernhardt'**

PEONY This clump-forming perennial has divided leaves and large, fragrant double flowers with ruffled rose-pink petals, fading to silvery blush white at the margins. Grow in a mixed bed in fertile soil; feed well.

†↔3ft (1m)

☹️ ! Z3–8

PERENNIAL MEDIUM

Physostegia virginiana

OBEDIENT PLANT This compact, erect perennial has toothed midgreen leaves. From late summer to early fall, it bears spikes of tubular white, pink, or purple flowers that can be placed in position. 'Vivid' (above) has purple flowers.

†↔24in (60cm)

☹️ Z3–9 (N)

SHRUB MEDIUM

Paeonia suffruticosa

TREE PEONY This is an upright deciduous shrub with deeply lobed dark green leaves. In late spring, bowl-shaped, sometimes scented, pink, white, red, or purple flowers appear. Grow it next to a wall or fence in fertile soil.

†↔7ft (2.2m)

☹️ ! Z5–8

SHRUB MEDIUM

Physocarpus opulifolius

NINEBARK A deciduous shrub with peeling bark and lobed midgreen leaves. It bears domed white flower clusters in late spring, followed by red-brown fruits. Use at the rear of a bed or to mask a fence. 'Dart's Gold' (above) has yellow young foliage.

†6ft (2m) ↔8ft (2.5m)

☹️ pH Z3–7 (N)

PERENNIAL SMALL

Pulmonaria saccharata

BETHEHEM SAGE This clump-forming semievergreen perennial has bristly, white-spotted blue-green leaves and clusters of blue-purple funnel-shaped spring flowers. Use as ground cover beneath trees or shrubs, or to edge a flowerbed.

†12in (30cm) ↔24in (60cm)

☹️ Z3–8
