

PERENNIAL LARGE

Digitalis ferruginea

RUSTY FOXGLOVE An upright perennial with basal rosettes of oval, rough dark green leaves. Long slender spikes of funnel-shaped orange-brown and white flowers appear in midsummer. An excellent border plant for cold and exposed gardens. ↑4ft (1.2m) ↔12in (30cm)

☀ Z4–9

PERENNIAL MEDIUM

Dryopteris wallichiana

WALLICH'S WOOD FERN A clump-forming deciduous fern with a "shuttlecock" of lance-shaped, divided, bright yellow-green fronds, aging to dark green, and brownish black scaly stems. Best in fertile soil; it tolerates deep shade and dry conditions. ↑3ft (1m) ↔30in (75cm)

☀ Z5–7

BULB LARGE

Fritillaria pallidiflora

SIBERIAN FRITILLARY A perennial bulb with lance-shaped blue-green leaves that die back after flowering. It bears nodding, bell-shaped greenish yellow flowers that are checkered brownish red within in early summer. Plant the bulbs in groups in fall. ↑28in (70cm)

☀ Z4–9

PERENNIAL SMALL

Helleborus niger

CHRISTMAS ROSE This clump-forming evergreen perennial has divided, leathery dark green leaves and, from winter to early spring, cup-shaped, nodding, white or pink-flushed flowers with green "eyes." 'Potter's Wheel' (above) has pure white blooms. ↑↔12in (30cm)

☀ ☹ Z3–8

TREE SMALL

Juniperus scopulorum

ROCKY MOUNTAIN JUNIPER A cold-tolerant pyramidal conifer with sharply pointed scalelike leaves and small cones. 'Skyrocket' (above) has a narrow columnar habit and blue-gray foliage; ideal for a small garden in light shade. ↑20ft (6m) ↔30in (75cm)

☀ Z3–7 (N)

PERENNIAL MEDIUM

Hosta 'Krossa Regal'

PLANTAIN LILY This clump-forming, vase-shaped perennial has arching, deeply ribbed grayish blue leaves. In summer, it produces spikes of short-lived lilac flowers. Suitable for cold sites; shelter it from drying winds, and protect from slugs. ↑28in (70cm) ↔30in (75cm)

☀ Z3–8 (N)

PERENNIAL MEDIUM

Iris sibirica

SIBERIAN IRIS A rhizome-forming perennial with upright, swordlike blue-green leaves and large, beardless pink, blue, white, or yellow flowers from late spring to early summer. 'Butter and Sugar' (above) has yellow and white blooms. ↑3ft (1m) ↔indefinite

☀ ☹ Z3–9

SHRUB SMALL

Juniperus x pfitzeriana

JUNIPER This flat-topped, shrubby evergreen conifer has scalelike, gray-green leaves and dark, fading to pale purple, cones. 'Pfitzeriana Aurea' (above) has golden foliage, which turns yellow-green in winter. Best in dappled shade. ↑3ft (1m) ↔6ft (2m)

☀ Z4–9

SHRUB LARGE

Kalmia latifolia

MOUNTAIN LAUREL A bushy evergreen shrub with oval, glossy green leaves. From late spring to early summer, large clusters of pink cup-shaped flowers appear from crimped buds. Prune lightly after flowering to keep it neat. ↑↔10ft (3m)

☀ ☹ ☹ Z4–9 (N)

PERENNIAL MEDIUM

***Lamprocapnos spectabilis* 'Alba'**

BLEEDING HEART A clump-forming perennial with fernlike foliage. From late spring to early summer, it produces pendent, white heart-shaped blooms; dies back after flowering. ↑30in (75cm) ↔24in (60cm)

☀ ☹ Z3–9

SHRUB SMALL

Mahonia aquifolium

OREGON GRAPEHOLLY A spreading evergreen shrub with spiny, glossy dark green leaves that turn bronze in cold weather. In spring, it bears clusters of scented yellow flowers followed by black berries. It is ideal for all-year color. ↑3ft (1m) ↔5ft (1.5m)

☀ Z5–8 (N)
