

PERENNIAL MEDIUM

Centranthus ruber

RED VALERIAN This perennial has gray-green foliage and, from late spring to early fall, rounded clusters of small reddish pink flowers. It self-seeds freely, creating naturalistic groups in a bed, but can become invasive.

↑3ft (1m) ↔24in (60cm) or more

☀️ ☀️ ☀️ Z5–8

PERENNIAL LARGE

Crambe cordifolia

COLEWORT This tall perennial produces mounds of dark green foliage below clouds of tiny white fragrant blooms that appear on sturdy stems in summer. Its see-through flowers mean it can be used toward the front of a bed.

↑6ft (2m) ↔4ft (1.2m)

☀️ ☀️ ☀️ Z5–9

PERENNIAL LARGE

Cynara cardunculus

CARDOON This upright perennial, also grown as an annual, has spiny, silver-gray foliage and large, thistlelike purple blooms. Mix with other sun-lovers; use at the back of a bed from summer to fall. Considered invasive in some West Coast areas.

↑6ft (2m) ↔3ft (1m)

☀️ ☀️ ☀️ Z7–9

PERENNIAL MEDIUM

Echinacea purpurea 'Rubinstern'

CONEFLOWER A perennial with oval dark green leaves and, from summer to mid-fall, large, daisy-like dark pink blooms. Remove the spent flower heads to encourage further flowering. Sold as 'Ruby Star'.

↑32in (80cm) ↔18in (45cm)

☀️ ☀️ ☀️ Z3–8 (N)

PERENNIAL MEDIUM

Echinacea purpurea 'White Swan'

CONEFLOWER This upright perennial has dark green leaves and large white flowers with spiky centers from late summer to fall. Plant it near the front of a bed, and use to contrast with darker-flowered plants.

↑24in (60cm) ↔18in (45cm)

☀️ ☀️ ☀️ Z3–8 (N)

PERENNIAL LARGE

PERENNIAL LARGE

Echinops ritro

SMALL GLOBE THISTLE This upright perennial has prickly, divided green leaves and globe-shaped, spiky metallic blue flower heads in late summer. Use it to plug the gaps left by tall alliums as they begin to fade. Varieties include 'Veitch's Blue'.

↑4ft (1.2m) ↔30in (75cm)

☀️ ☀️ ☀️ Z3–9

PERENNIAL LARGE

Eryngium giganteum

SEA HOLLY A short-lived upright perennial with marbled heart-shaped gray-green foliage and tall stems topped with silvery gray conelike summer blooms surrounded by spiny bracts. It self-seeds in free-draining soil to create natural swaths.

↑3ft (1m) ↔12in (30cm)

☀️ ☀️ ☀️ Z4–8

PERENNIAL LARGE

Eutrochium purpureum

JOE PYE WEED This bold upright perennial has coarse green leaves on tall purple-flushed stems and, from late summer to early fall, fluffy domed purple-pink flower heads. Plant it at the rear of a bed for screening or to create a backdrop.

↑7ft (2.2m) ↔3ft (1m)

☀️ ☀️ ☀️ Z4–9 (N)

PERENNIAL LARGE

Gaura lindheimeri

WAND FLOWER This upright perennial produces green spoon-shaped leaves and pink-tinged buds that open to reveal small white flowers throughout summer. Weave it in groups between flat-headed flowers, such as stonecrop and yarrow.

↑5ft (1.5m) ↔3ft (1m)

☀️ ☀️ ☀️ Z5–9 (N)

PERENNIAL MEDIUM

Geranium sylvaticum

WOOD CRANESBILL This perennial produces clumps of lobed midgreen leaves and, from late spring to early summer, round white-centered blue-purple flowers. Grow it in groups in moist soil at the front of a bed.

↑30in (75cm) ↔24in (60cm)

☀️ ☀️ ☀️ Z3–8

PERENNIAL MEDIUM

Geum rivale

WATER AVENS This perennial forms neat rosettes of rounded green leaves and, from late spring to summer, pink or dark orange bell-shaped flowers on slender stems. Plant it at the front of a bed in moist soil; it may self-seed.
