

SHRUB SMALL

Rosa KENT

GROUNDCOVER ROSE A spreading ground-cover rose with disease-resistant, glossy midgreen leaves and clusters of flat, white semidouble flowers from summer to fall. Plant it in a large container of soil-based potting mix, or in a mixed bed.

↑ 32in (80cm) ↔ 3ft (1m)

☀️ Z5–9

PERENNIAL SMALL

Salvia splendens

SCARLET SAGE An upright tender perennial, grown as an annual, with spear-shaped dark green leaves and compact spikes of tubular, pink, red, and purple summer blooms. Plant at the front of a bed for a bold splash of color. Deadhead spent spikes.

↑ 10in (25cm) ↔ 14in (35cm)

☀️ Z10–11

PERENNIAL MEDIUM

Salvia x sylvestris

WOOD SAGE This compact perennial has small aromatic dark green leaves and branched spikes of violet blooms in summer. 'May Night' has indigo-blue flowers. It is an excellent front-of-bed plant or filler for a parterre.

↑ 28in (80cm) ↔ 12in (30cm)

☀️ Z4–9

TREE LARGE

Tilia cordata

LITTLELEAF LINDEN This deciduous tree has heart-shaped, glossy dark green leaves that turn yellow in fall, and small yellowish white summer flowers. Ideal for pleaching or as formal hedges; trim in summer. Makes a good shade or street tree.

↑ 100ft (30m) ↔ 40ft (12m)

☀️ Z3–7

SHRUB SMALL

Rosa 'Penelope'

HYBRID MUSK ROSE A hybrid musk shrub rose with long arching stems, glossy dark green foliage and large clusters of fragrant, cream and pale pink semidouble flowers from summer to fall. Plant in a formal rose bed or formal bed.

↑↑ 3ft (1m) more if lightly pruned

☀️ Z6–9

TREE LARGE

Taxus baccata

ENGLISH YEW An evergreen tree with needlelike dark green leaves and red berries in fall. Clip it in spring and summer; tolerates hard pruning, if necessary. Use for dividing up a garden or to create a hedge for boundaries. All parts are highly toxic.

↑ 50ft (15m) ↔ 30ft (10m)

☀️ ☀️ ☀️ ☀️ ⚠️ Z6–7

SHRUB SMALL

Rosa SUNSET CELEBRATION

HYBRID TEA ROSE A hybrid tea rose with disease-resistant midgreen leaves and, from summer to fall, pointed, scented, orange-pink fully double flowers that age to rose-pink. Plant in groups to fill parterres or use as a specimen plant in formal designs.

↑ 3ft (1m) ↔ 32in (80cm)

☀️ Z7–10

TREE SMALL

Taxus x media

YEW An evergreen conifer with needlelike dark green leaves, lighter green below, and red fall berries. Faster growing than *T. baccata*, it makes a beautiful formal hedge. Trim the plant in early spring. All parts are highly toxic.

↑ 20ft (6m) ↔ 12ft (4m)

☀️ ☀️ ☀️ ☀️ ⚠️ Z5–7
