

SHRUB SMALL

Calluna vulgaris

SCOTCH HEATHER This ground-cover evergreen shrub has upright stems covered with green, gold, or silver scalelike leaves that often color up in fall and winter. White, pink, red, or purple late summer to fall flowers offer nectar.

PERENNIAL SMALL

Campanula rotundifolia

HAREBELL A perennial meadow plant with small rounded basal leaves and, in summer, bell-shaped light blue flowers on slender upright stems. Grow this dainty bee plant in grassy patches or rock gardens; avoid using fertilizer.

↑↔12in (30cm)

☀️ 🌧️ 🌱 Z5–7 (N)

PERENNIAL SMALL

Cardamine pratensis

LADY'S SMOCK A neat clump-forming perennial with midgreen leaves, divided into leaflets. In spring, it bears spikes of lilac single flowers, although double forms (above) are also available. It is ideal for boggy areas or pond perimeters.

↑18in (45cm) ↔12in (30cm)

☀️ 🌧️ 🌱 Z4–8 (N)

PERENNIAL SMALL

Centaurea montana

PERENNIAL CORNFLOWER Plant this perennial in informal schemes and allow it to self-seed. Branched stems bear green leaves and, in early summer, thistlelike, red-purple-centered blue blooms that bees adore. Cut back for a second flowering.

↑20in (50cm) ↔24in (60cm)

☀️ 🌧️ 🌱 Z3–8

PERENNIAL LARGE

Cephalaria gigantea

GIANT SCABIOUS Place this clump-forming perennial at the back of a large bed or naturalize in rough grass. In summer, pale yellow blooms that are attractive to butterflies appear above green divided leaves on towering branched stems.

↑8ft (2.5m) ↔24in (60cm)

☀️ 🌧️ 🌱 Z3–7

PERENNIAL SMALL

Chamaemelum nobile

CHAMOMILE An evergreen perennial that forms a carpet of feathery aromatic leaves. From late spring to summer, it bears simple white daisy-like blooms. Plant it alongside wildflowers to create a naturalistic meadow effect.

↑4in (10cm) ↔18in (45cm)

☀️ 🌧️ 🌱 Z5–9

CLIMBER LARGE

Clematis montana

HIMALAYAN CLEMATIS A vigorous deciduous climber that flowers from late spring to early summer, bearing numerous small white blooms with yellow centers. It provides nectar as well as shelter for early-emerging insects.

↑40ft (12m)

☀️ 🌧️ 🌱 Z6–9

SHRUB LARGE

Cornus alba

TATARIAN DOGWOOD An upright deciduous shrub with bright scarlet shoots in winter. The creamy white early summer flowers are followed by bluish white fruits. Plant to provide cover around wildlife pools. Prune in late winter for more colorful stems.

↑↔10ft (3m)

☀️ 🌧️ 🌱 Z2–7

SHRUB LARGE

Cornus mas

CORNELIAN CHERRY This useful deciduous shrub or small tree has reddish purple fall leaves and edible red fruits loved by birds. In late winter, it produces rounded clusters of nectar- and pollen-rich tiny yellow blooms on bare stems.
