BULB MEDIUM

Hyacinthus orientalis

HYACINTH Introduce fragrance to a container collection with this early spring-flowering bulb. Its spikes of fragrant, bell-shaped flowers in many colors go well with evergreen perennials in containers of soil-based potting mix; plant in fall.

☀️ ⚠️ Z3–8

BULB SMALL

Iris reticulata

RETICULATED IRIS Plant this perennial bulb with dwarf irises of other colors in fall in small containers of gritty potting mix. The small reddish purple flowers with yellow and white marks on the lower petals appear in early spring.

↑ 6in (15cm)

☀️ ⚠️ Z5–9

SHRUB LARGE

Itea virginica

VIRGINIA SWEETSPIRE Best for permanent planting in a large pot, this evergreen shrub bears arching stems of spiny dark green leaves and flowers from midsummer to early fall producing trailing greenish white racemes. Grow in acidic soil mix.
