

PERENNIAL SMALL

Primula Gold-laced Group

POLYANTHUS PRIMROSE These evergreen perennials add a touch of class to patio containers. In spring, upright stems topped with gold-centered mahogany blooms with bright edging complement dwarf daffodils in containers of potting soil.

PERENNIAL SMALL

Primula veris

COWSLIP This perennial forms a rosette of lance-shaped leaves. It bears clusters of nodding, almond-scented yellow blooms in spring. Deadhead to prolong the display. Plant in pots in fall or spring. Transplant to garden after flowering.

↑↔ 10in (25cm)

BULB MEDIUM

Scilla siberica

SIBERIAN SQUILL This perennial bulb flowers in spring, producing upright stems of nodding, bell-shaped blue flowers. Plant groups of bulbs in small pots in fall, then plant out into larger mixed containers in spring.

↑ 8in (20cm)

BULB MEDIUM

Tulipa clusiana var. chrysantha

LADY TULIP This tulip blooms from early spring and makes a dainty feature in pots or troughs of gritty soil-based potting mix. It bears bowl-shaped yellow blooms, tinged red on the outside. Plant the bulbs in fall.

↑ 12in (30cm)

☀️ 🌧️ 🌱 Z3–8

BULB MEDIUM

Tulipa 'Purissima'

TULIP This bulb bears bowl-shaped creamy white flowers in mid-spring that are set against purple-marked gray-green leaves. Plant the bulbs in frostproof containers in fall. The tulips can then be transferred to mixed pot displays in spring.

↑ 16in (40cm)

PERENNIAL SMALL

Tiarella wherryi

FOAM FLOWER This shade-tolerant leafy perennial, with deeply lobed, maroon-tinted green leaves, makes a great foil for spring bulbs such as daffodils. In late spring or early summer, frothy white or pink flower heads appear.

↑ 8in (20cm) ↔ 6in (15cm)

☀️ 🌧️ 🌱 Z3–7 🌱

BULB MEDIUM

Tulipa 'Spring Green'

TULIP The late-spring cup-shaped blooms of this Viridiflora tulip are creamy white with green streaks and make elegant partners for hot-hued tulips and late-flowering daffodils. Plant the bulbs in frostproof containers in fall.

↑ 15in (38cm)

☀️ 🌧️ 🌱 Z3–8

PERENNIAL SMALL

Viola x wittrockiana

PANSY This valuable bedding plant produces oval leaves and flowers in almost every shade imaginable from late winter to spring, providing a colorful frill around containers of spring bulbs. Plant it in potting soil.
