

PERENNIAL LARGE

Helianthus 'Lemon Queen'

PERENNIAL SUNFLOWER Add a splash of color to the back of a fall border with this upright perennial, which produces dark green leaves and large, daisy-like pale yellow flowers on branched stems. The tall stems may need staking.

↑5ft (1.5m) ↔24in (60cm) or more

☀️ ☀️ Z4–9 (N)

PERENNIAL LARGE

Leucanthemella serotina

GIANTDAISY Ideal for a naturalistic or wild garden, this tall perennial produces yellow-eyed white daisies on top of leafy stems in fall. Use it along with asters and Joe Pye weed to brighten up the back of a bed.

↑5ft (1.5m) ↔3ft (1m)

☀️ ☀️ ☀️ Z4–9

PERENNIAL SMALL

Liriope muscari

LILYTURF An evergreen perennial with grasslike, glossy dark green leaves and spikes of tiny lavender or purple-blue fall flowers, followed by black berries. Use as edging for a shady border. Considered invasive in some areas of the Southeast.

↑12in (30cm) ↔18in (45cm)

☀️ ☀️ Z6–10

PERENNIAL MEDIUM

PERENNIAL MEDIUM

Lysimachia clethroides

GOOSENECK LOOSESTRIFE This spreading perennial has gray-green foliage and, from late summer to fall, long, pointed, white flower heads. Can be aggressive; ideal for large or naturalistic gardens. Support the stems; remove unwanted growth in fall.

↑↔3ft (1m)

☀️ ☀️ Z3–8

PERENNIAL MEDIUM

Pennisetum alopecuroides

FOUNTAIN GRASS This deciduous grass produces arching green leaves that turn bronze and spikes of bristly purple-tinged flower heads in late summer, followed by fall seedheads. Try it with dahlias, black-eyed Susan, and stonecrop.

↑3ft (1m) ↔18in (45cm)

☀️ ☀️ Z6–9

PERENNIAL MEDIUM

Rudbeckia fulgida

BLACK-EYED SUSAN This upright perennial has narrow midgreen leaves. From late summer to fall, it is awash with daisy-like golden flowers with brown centers, which give winter interest when the blooms fade. Plant it mid-bed in a sunny site.

↑3ft (1m) ↔18in (45cm)

☀️ ☀️ ☀️ Z4–9 (N)

BULB MEDIUM

Nerine bowdenii

SPIDER LILY This spring-planted perennial bulb sleeps in summer, but bursts to life in fall when spidery pink flowers emerge on upright stems. Strap-shaped leaves unfurl later. Grow it at the front of a sunny bed.

↑24in (60cm)

☀️ ☀️ Z8–10

PERENNIAL LARGE

Rudbeckia laciniata

CUTLEAF CONEFLOWER A towering perennial that adds interest to the back of an early fall bed. The daisy-like bright yellow flowers that grow atop tall stems, combine well with asters. It performs best in soil that does not dry out.

↑6ft (2m) ↔30in (75cm)

☀️ ☀️ ☀️ Z3–9 (N)

Panicum virgatum

SWITCH GRASS Use this upright deciduous grass as a leafy companion for fall-flowering plants. It bears blue-green foliage, which turns yellow in fall, and clouds of pink-tinged green summer flower heads, which fade to beige.

↑3ft (1m) ↔30in (75cm)

☀️ ☀️ Z5–9 (N)
